1970-81 Custom Autosound SS Secretaudio

- Ideal For Restored Camaros
- Allows You To Have Great AM/FM Stereo Reception Yet Leave Your Stock Radio In Place
- Hidden Amp/Receiver Is Controlled With A Tiny Hand Held Remote
- Optional 6 Disc CD Changer Available For Secretaudio

Secretaudio is a hidden audio system that offers great flexibility for mounting in any vehicle. The main receiver/amplifier unit is usually hidden under the seat or behind the dash. A 9 ft. cord from this unit goes to a LCD display. The small dimensions of the LCD are 1.5" high X 4.125" wide X .75" deep. The LCD can be mounted in the glove box, ashtray, sunvisor, console or anywhere that's convenient. Included with the system are a flush mount bezel for console or dash mounting and a swivel bracket for under dash or surface mounting. The third piece of the system is the wireless remote control. On the SS Secretaudio this is a Radio Frequency (RF) remote. With RF you don't have to point the remote at the display. In fact, you can use the RF remote from up to 40 ft. away and control all functions of the system and even the optional 6-disc CD changer. Secretaudio radios are compatible with the Custom Autosound USA-CD60 six disc changer only. Other brands of changers will not work with this system.

1970-02 Custom Autosound Hide Away In-Car Antenna

- Multiple Mounting Options
- No Drilling Or Grounding Required
- Must Be Wired To Switched 12 Volt Source

- Includes 104" Power Lead & Antenna Cable

Why break up the clean lines of your custom Camaro with an external antenna? Custom Autosound offers an interior-mounted hidden antenna as a great alternative. This active magnetic type, amplified electronic AM/FM antenna gives optimum radio reception without drilling or grounding. It requires 12VDC power that is switched on with the ignition. For best reception, the adhesive-backed antenna body must be unobstructed by metal. It's typically mounted to the top inside of the windshield or on the rear window/package shelf area. The pre-wired 104" long power lead and antenna cable allows you to find just the right spot for installation and it can be extended if necessary.

1998-02 Double Roller Timing Chain Kit

- Outperforms Stock Unit To Provide Greater Timing Accuracy
- Exceeds Factory Strength & Durability

The factory timing chain is a weak link when used in hi-performance engines. We recommend upgrading to a Double Roller Timing Chain and Gear Kit for all LS1 hi-performance engines. The double roller chain and gears have outstanding durability and strength for high RPM usage plus cam timing is precisely maintained.

1982-92 Ignition Coil Kits

Produces Twice the Output of Stock Coil Performance Distributors has just developed the hottest HEI Coil Kit made to date. The coil is remarkable in that it's capable of 7000 RPM's with 50,000 volts of Power! To back up the super high voltage spark, the coil is mated to a superior cap with bronze terminals and a special material rotor also with bronze terminals for maximum performance. Nylon rotor screws are supplied with the rotor to prevent misfire within the highly charged cap.

Note: When using the Performance Distributor High Voltage Kit, stock ignition plug wires may not be adequate. We recommend use of Livewires.

1985-97 TPI Or LTI Power Now Inlet Fairing

- Improves Air Flow
- Increases HP & Torque

Gain up to 14 additional horsepower from your 1985-97 Camaro engine with the simple-to-install "Power Now" Inlet Fairing. By improving air flow to the idle air solenoid of any tuned port injection engine, the "Power Now" fairing produces better throttle response and increased torque over your engine's entire RPM range. Your engine will rev easier and even sound better with this fairing in place. Installs on any late model TPI engine in the first fold of the intake plenum, just ahead of the throttle body without any additional hardware. **Not legal for sale or use in California or on pollution controlled vehicles.**

1993-97 Adjustable Throttle Position Sensor Kit

- Allows You To Tune Throttle Response & Performance
- Easy To Install/Easy To Tune • V8 Only

The TPS (throttle position sensor) is a variable resistor connected to the throttle shaft on the throttle body. When the accelerator pedal moves, the TPS sends a signal to the computer. The computer calculates the fuel delivery and the air being consumed based on the throttle valve angle. Our adjustable TPS lets you fine-tune your Camaro's throttle response for maximum performance by changing the voltage of the sensor. The stock TPS is pre-set and cannot be adjusted. Out-of-adjustment TPS's can cause erratic idle, stumbling, surging and overall poor engine performance. The TPS kit includes the sensor, replacement connector/terminals, test jumper adjustment tool and instructions.

- Adds 6-13 Horsepower
- Adds 6-10 Ft./Lbs. Torque
- Pressure Fits Into Throttle Body

In just minutes you can add the VR Velocity Stack to your LS1 throttle body and gain horsepower and torque that you can feel in the seat of your pants. The stack reshapes the throttle body housing to greatly improve air flow throughout the entire RPM band so you feel the power the instant you stab the throttle and until you reach peak RPM. In fact throttle response will be immediately improved with this high temperature ABS unit that simply pressure fits into the throttle body housing. The VR Stack works well with the factory air cleaner and works best with the factory accordion hose. However, for even better results the VR Stack provides the optimum power gains with aftermarket intake systems.

• Easy To Use

The Hypertech Power Programmer con-

quers the latest in engine management technology. Since 1994, the Camaro's computer no longer has a replaceable chip, so Hypertech developed a portable programmer allowing you to reprogram your Camaro's computer yourself. Simply plug the programmer into the computer ALDL connector and you're ready to reprogram. With a push of a button, the factory program is downloaded into the programmer where it is stored, and may be used again if needed. Then Hypertech's performance program is uploaded. The program features both optimized ignition and fuel curves for maximum horsepower at all rpm points resulting in improved driveability and performance. The Power Programmer also raises the automatic transmission's shift points and the engine's rev limiter. It will even recalibrate the speedometer for a variety of aftermarket gear ratios.

1982-92 Fiberglass Front Bumper

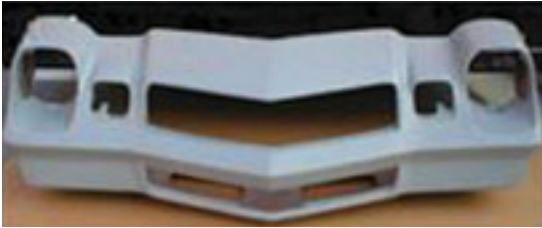

NEW

- 1-1/2 oz. Fiberglass Mat (3 layers)
- Hand Laminated
- 21 Mils Of Soft-Sanding Gelcoat
- Contains All Original Mounting Tabs And Bosses
- Cured For 24 Hours In The Mold
- Bolt-On Installation

You have waited long enough! Now there is a replacement front bumper for your 1982 to 1992 Camaro. It has been designed with the IROC/Z28 front spoiler as a one piece unit. That spoiler alone from GM is upwards of \$300. Even if you find a new GM urethane bumper in the box, it has been sitting on a shelf for 20 years, and will require extensive prep work to return to its original shape. All you need to do to this bumper is sand, prime and paint! This bumper is made for use with 1986 and up IROC/Z28 parking lamps (P/N 728013 & 728018), fog lights (P/N 728095 & 728096), and grille (P/N 702254 or 702102) This will even fit Rally Sport models, but the sides of the lower spoiler won't have scoops like the original.

1970-81 Bucket Seat Foam

- Highest Quality Reproduction Available
- 2 Required Per Car

After years of use your seat foam does two things, a) it disintegrates and b) it compresses, thereby unable to support you comfortably and maybe more importantly, it will not hold the crisp, good looking lines of your seat covers. To get the best looking and best feeling set of seats, always install new seat foam with new seat covers.

1970-02 Replacement Carpet Floor Mats

- Matches Original Carpet
- Available In All Carpet colors
- Skid Resistant Backing

Our Replacement Floor Mats are made from the same carpet as our carpet sets and are quality manufactured by Auto Custom Carpets. Embroidered and non embroidered mats are available in 80/20 Loop and Cut-Pile in all factory colors. Our Mats feature extra long nibs to hold them securely in place. A secured mat enhances safety by not interfering with the pedals in a panic situation. The Loop material is the new Raylon fabric which features higher density and improved color fastness.

1970-02 Carpet Sets

- Reproduction Of Original
- Correctly Molded And Die-Cut As Needed For Proper Fit And Easier Installation

For originality and perfect fit ACC carpets can't be beat. With ACC carpet sets you get features like the correct color heel pad that is dielectrically sealed to the carpet, the correct weight and style of jute padding attached to the carpet, correctly colored bindings stitched with the correct color thread, die-cuts for seat tracks and other bolt-in items as needed, and the correct style dimmer switch grommet. In addition ACC carpets are press formed to perfectly match the contours of the Camaro floorpan to make installation flawless. For 1970-73 carpet sets ACC has now improved on the factory style 80120 loop carpeting to give you all the originality of the stock carpet with the density and color fastness of today's rayon style carpet. Fitment Note: Some 1970-76 Camaros had carpet that extended over the driveshaft tunnel between the rear seats, this was referred to as carpet with a tail. If not it is referred to without tail, so please order accordingly.

1970-02 HushMat Floor and Firewall Insulation Kit

- Reduces Road Noise And Dramatically Improves Thermal Insulation To Create A Super Quiet And Easy To Cool Interior Compartment

Tired of a hot, noisy Classic? The way to solve those two problems is with a HushMat insulation kit. HushMat insulation will keep the heat out, your air conditioning in and will greatly reduce exhaust, road, engine, rear end noise and vibration as well. Easy to install, HushMat is self-adhesive and will stick to any interior surface you apply it to. It comes in easy-to-handle squares instead of large, hard-to-handle rolls or sheets. Just fit, trim if needed, peel and stick. HushMat trims easily with scissors or a box knife so no special tools are needed. No need to spend time cleaning the surface it will be applied to as HushMat will adhere to most any surface with no cleaning or glue needed. It is constructed of 100% Butyl and aluminum with just 1/16" total thickness. It is far thinner than most other insulation products on the market, allowing it to be installed into tight cavities while still providing superior insulating power.

- Replaces Original for Improved Performance
- Helps Keep Car Cooler

NEW

This ABS plastic Firewall Guard is far superior to the original part. It is the same thickness, installs the same way, but it will help keep your Camaro cooler and last longer. In addition it looks like the original and does a better job of holding your carpet in place. So whether you're restoring or upgrading your Camaro this replacement Firewall Guard is an excellent choice.

Step Up To Aluminum
Original Camaro radiators were constructed of copper and brass. Now you can upgrade to aluminum and get not only improved cooling but greater durability than the original copper brass units.

High Temperature Epoxy Makes This Radiator EXTRA Strong

1970-81 Griffin Aluminum Radiators

Our Griffin aluminum radiators offer the best cooling money can buy. The side tanks and cores are all aluminum for maximum heat dissipation. For higher performance engines, the larger tube sizes offer more cooling. These radiators mount in the stock locations and are flanged as original.

1970-92 Stewart Stage 2 Water Pumps

- Reduces Engine Temperature Up To 40 Degrees
- 41% More Coolant Flow
- Equal Flow To Both Heads
- High Flow And Pressure
- Hand Polished Finish On 718438
- 356-T6 Heat Treated Aluminum Alloy

718438

Stewart Stage 2 Pumps use a hardened aircraft grade housing that is ribbed inside and out for superior structural integrity. They are compatible with all stock hoses and brackets. The rear cover and attaching bolts and Zinc Plated for years of corrosion free operation. By machining the bearing mounting surfaces, they allow a tighter fit between the impeller and housing. This forces more coolant through the impeller instead of pooling around it. The impeller vanes are of an improved proprietary design which directs fluid more directly, resulting in more flow across all RPM's. Stewart Pumps are backed by a one year warranty against defects in materials and workmanship.

1970-86 Stewart Stage 1 Water Pumps

- Higher Flow At Lower RPM's For Better Cooling
- Precision Ground Fan Hub For Perfect Pulley And Fan Alignment

Stewart Stage 1 pumps use brand new, original equipment castings that are machined to our exacting standards. Stage 1 Pumps are compatible with stock hoses & brackets, but are internally modified for performance & reliability. Guaranteed for one year from date of purchases against defects in material & workmanship.

1970-78 Vintage Air Gen IV Air Conditioning & Heater Kit

- The Best Cooling Available For Your Classic Camaro
- Sure-Fit In Dash Installation With Electronic Servos
- Includes Air Conditioning & Heat

This Camaro Vintage Air Gen IV air conditioning unit is sure to keep you cool even on the hottest summer days. This kit includes all components needed to complete the installation except for belts and engine pulleys. Just install, charge and go! This is not a "hang-on" kit; it fits under the dash, taking place of the original heater system. This Gen IV unit features fool-proof electronic servo controls that operate using the original heater control panel. These servos control an advanced ECM module for maximum efficiency. All of our Vintage Air systems use HFC-134A refrigerant. Keep cool in the summertime with a Camaro Vintage Air Gen IV air conditioning system.

1970-81 Hotchkis Front & Rear Sway Bar Set

NEW

- 1-3/8" Hollow Front Sway Bar
- 7/8" Hollow Rear Sway Bar
- Show Quality Appearance

Improve cornering by reducing body roll with a set of Hotchkis Performance Sway Bars. Hotchkis bars are CNC bent for a precise fit and feature lightweight hollow construction and include greasable polyurethane bushings, end links, fabricated rear links, stainless u-bolts, brackets, and all necessary hardware. Hotchkis bars are powder coated for durability, and tested and tuned to ensure the best performance possible.

1993-02 Hotchkis Rear Adjustable 15/16" Anti-Sway Bar

NEW

- Durable, Gloss Black Powder Coat Finish
- Bolt-In installation requires no vehicle modifications
- Contains all necessary mounting and links
- Includes Greasable Polyurethane Bushings & Mounts

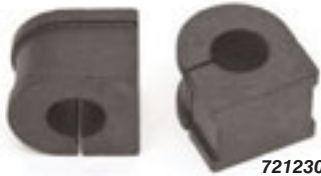

Now you can fine tune the handling of your 1993-2002 Camaro with the new bolt-in Hotchkis Adjustable Rear Sway Bar. Three adjustment settings – 225, 240 and 255 lbs/in can be selected by simply moving the included heavy duty end links into the desired adjustment hole at the end of the 15/16" tubular steel sway bar. The result is maximum adjustability, control and driver feedback with the ability to dial-in the way the car responds to throttle steer and how it reacts to driver input. Mounts, greasable Polyurethane bushings and complete installation instructions are included.

1993-02 Skip Shift Eliminator For 6 Speed Transmission

- Caps Ends Of Disconnected CAGS Harness
- Prevents Fouling/Corrosion
- Enables Re-Hookup

Decide for yourself what gear you want to be in! Dump that annoying first-to-fourth "skip-shift" GM incorporates into the 6-speed Camaro with the Skip-Shift Eliminator. This plug in piece requires no additional modifications to your vehicle. With it in place, you take complete control over gear selection. Isn't that why you got a 6-speed? Plug in installation. Shipped complete with everything you need including easy installation instructions. Not legal for use on pollution controlled motor vehicles.

1967- Aqua Shed Premier Tan Car Cover

- Best Water Repellency • Custom-Fit
- Four Layers: Bicomponent Strength Layers, Bicomponent Layer, Microporous/Breathable Barrier Film & Soft Bicomponent Spunbound Layers
- Scratch-Proof Grommets • Ideal For Indoor & Outdoors
- 5-Year Warranty • Cover Bag Included

Looking for a superior car cover? The Aqua Shed Premier car cover is the best overall car cover you can buy! This unique 4-layer cover is manufactured using the newest, state-of-the-art production technology. Four high-tech materials are ultrasonically joined for multiple layers resulting in maximum protection for your Corvette. The inner core is a soft spunbound layer designed to preserve your beautiful paint finish. The second layer is made up of a microporous/ breathable barrier. The third and fourth layers are bicomponent layers with the outer layer adding overall strength, UV resistance and durability to the cover. This combination results in an exceptionally high strength-to-weight ratio, with the "soft touch" necessary for today's water-based paint finishes. Scratch-proof grommets are built-in for an optional safety lock and cable. Protect your valuable Corvette with an Aqua Shed Premier car cover from Eckler's!

Battery Tender

- Safe, Reliable, Trouble Free Battery Care
- Developed To Maintain Batteries Not In Constant Use Or Storage

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

Battery Tender Waterproof 800 Charger

- Charges Battery & Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is totally epoxy encapsulated so it will perform even while submersed under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

88-0235-3 11.99 ea.

Plexus Plastic Protector

This stuff was originally developed for use on expensive aircraft windshields, but a funny thing happened. People realized it worked great on all kinds of plastics. It cleans the surface and leaves a shiny, protective layer of wax to guard the vulnerable, porous surfaces. Also works great on plastic-based acrylic paints and clear coated aluminum wheels.

88-0261-3 13 oz. Spray 14.99 ea.

Connolly Hide Care

Hide Care is a concentrated cleaner that feeds the leather to achieve a rich, polished finish, and to help prevent cracking. Great for vinyl, as well.

88-0232-2 13 oz. 26.99 ea.

Connolley Leather Care Kit

The leather care kit contains leather cleaner (17 oz), and leather conditioner (10 oz). Specially blended with lanolin conditioners that will penetrate and soften all the leathers.

88-0233-2 59.99 kit

Autosol Metal Polish

Bring out the shine and luster in aluminum, copper, magnesium, and brass with this polishing paste. Goes on and comes off quickly and easily.

88-0199-3 7.99 ea.

P21S Chrome Polish

A unique multi-surface polish specifically formulated for the variety of surfaces found on today's automobiles. P21S Chrome Polish and Finish Restorer easily renews badly tarnished metals to a brilliant shine, yet remains mild enough to use on paintwork and plastics.

88-0224-3 3.56 oz 72.99 ea.

Tools & Car Care

P21S Paintwork Cleanser

This thick gloss-enhancing liquid removes water acid spots, swirl marks and other minor imperfections without scratching. Easy to apply without leaving powder residue; ideal for all modern clearcoats.

88-0221-3 11.8oz 15.99 ea.

P21S Window Wash Boost

High performance detergent eliminates dangerous windshield streaking. Easy to use. Concentrated mixture makes 6-1/2 gallons.

88-0220-3 18oz 29.99 ea.

P21S Paste Wax

Give your car the ultimate concours shine in minutes! A rich blend of pure Brazilian #1 yellow carnauba and beeswax delivers a dynamite shine that lasts and lasts. A paste wax that's virtually as easy to use as liquid, P21S wax goes on and comes off with incredible ease and no powder residue.

88-0222-3 6.2 oz. 33.99 ea.

P21S 100% Carnauba Paste Wax

P21S breaks the 'carnauba barrier' with its 100% carnauba-based Paste Wax.

88-0223-3 54.99 ea.

P21S Polishing Soap

The power of a polish, with the ease of a soap. Wet the sponge, rub it across the soap, scrub, then rinse with water. Use on chrome, stainless & aluminum to remove rust, oxidation and dulling in seconds!

88-0225-3 10.6oz 10.99 ea.

Zymol Concours Glaze

For those who demand "show-car" gloss and depth of shine.

88-0226-2 8 oz 179.99 ea.
