**DUAL CHAMBER POWER BRAKE CONVERSION KIT**

This setup utilizes a new power brake booster with increased sensitivity, new large capacity dual chamber

master cylinder, specially designed mounting bracket to allow direct bolt in while retaining original brake pedal assembly and clearance of the shock tower\*. Note: Booster requires a minimum 15 inches of engine vacuum pressure at idle for maximum stopping power. Some high performance high lift camshafts may not create enough vacuum. Stock engine vacuum pressure is 18 inches. 1 year warranty. Picture for reference only. Check website for actual picture of each kit. Will not fit cars with factory power brakes. Installation instructions are not included as this kit should be installed by a trained professional. We recommend part number PBC-MCL on the following page to ease installation. Early cars may also require a brake distribution block. \*Note: PBC-M1 & PBC-M2 require notching factory shock tower brace, therefore an Export Brace is recommended.

## TOPS, PADS & TACK STRIPS

### CONVERTIBLE TOP W/ GLASS BACK WINDOW

Glass rear windows greatly enhance rear visibility. They are not prone to scratching,

cracking or yellowing due to exposure to the sun. 1964 - 1970 rear windows have a visible urethane folding seam. 1971 - 1973 are solid glass. 1964 - 1966 must use 67 - 70 convertible well liner. 1964 - 1970 folding seam carries an 18 month warranty against splitting or separation. Glass rear window and top are now packaged in 1 box to save on shipping cost.

### RADIATOR CAP WITH ELECTROLYSIS PROTECTION

A special radiator cap that includes a sacrificial magnesium anode that protects aluminum and other soft material engine components from electrolysis. Electrolytic Metal Erosion (EME)

is slowly destroying your engine components. EME attacks timing chain covers, radiators, heater cores, intake manifolds, freeze plugs, head gaskets, thermostat housings even cylinder heads causing premature failures. By allowing EME to attack the sacrificial anode, the "Rad Cap" protects your engine while driving or in storage.

### LED SEQUENTIAL TAIL LIGHT KIT

Sequential LED tail lights. The ultimate custom look. We combined our

new LED tail light panels with our popular sequential light modules and EVF flasher. Our LED panels were designed with sequential operations in mind. You can choose to have either the large LEDs sequence or the rows of small LEDs. No other product offers you this choice. Electrical connectors and instructions are included for quick and easy installation.

### IGNITOR CONVERSION

Never change points again, plus increase horsepower and improve fuel economy. Fits entirely under the distributor cap,

with no "black box" to clutter the engine compartment. Installs in minutes, and is completely hidden. Other benefits: Test results show the Ignitor delivers twice the voltage to the spark plugs. No limits to coil and spark energy (spark energy is limited by the coil). A 2:1 improvement over "point type" systems in current fall time. Stable timing with no need for periodic adjustments. Increase spark plug life by 2 to 3 times. No contacts to burn, pit and corrode. No moving and rubbing parts to wear out. Better foul weather performance.

### HIGH POWER IGNITOR CONVERSION

The Ignitor II takes the Ignitor a step further by adding a powerful new microcontroller, that controls the dwell period, for the best

possible spark over the entire RPM range. Ignitor II offers enhanced performance levels only found in more expensive box type ignition systems. Compared to point type systems Ignitor II develops on average 4 times more available energy between 3,000 and 5,000 RPM, and 2 times more available plug voltage. Higher RPM performance is improved when used with the Flame-Thrower II super low resistance 45,000 volt coil.

### PERTRONIX SPARK PLUG WIRE SETS

These low resistance, high performance wire sets feature two current paths. One path is spiral wound stainless steel alloy and

the other is a carbon impregnated fiberglass center core. Other features include low 500 ohm per foot resistance. Silicone jackets used to resist high temperatures, moisture, oil and chemicals. EPDM rubber inner insulation for superior heat resistance and prevention of arching and voltage leaks. Fiberglass reinforcing braid for added strength and flexibility. Available in red, blue and black, these spark plug wires come with a lifetime warranty and are made in the U.S.A.

**"CAL CUSTOM" OIL PAN**

Scott Drake is proud to reintroduce the famous "Cal Custom" aluminum finned oil pan that was so popular throughout the 60's, 70's and 80's. It

has not been available for years, but it is back again and now even better than before! Not only do these pans look great fully polished with raised fins but they also offer the added benefit of reducing oil temperature to help your engine run cooler. We have even added a strong magnetic drain plug to help protect your engine from destructive metallic particles floating in your oil. These Oil Pans fit: 260, 289, and 302. Also available "Cal Custom" Aluminum Finned Valve Covers (C5ZZ-6A582-AF) and Air Cleaner (C5ZZ-9600-AFK)

## SCOTT DRAKE CLASSIC ALUMINUM VALVE COVERS

Made by Scott Drake, Classic Aluminum Valve Covers for small block Ford engines! These valve covers are die-cast from high-quality 383-3 aluminum alloy, & then given a durable powder-coated wrinkled finish or polished aluminum finish. They also feature a cadmium plated oil filler tube to help stop corrosion, an improved oil baffle design to accommodate high-lift cam shafts, & will work with most roller rockers. Spark plug wire brackets & PCV grommet included. Available in a variety of styles.

**Note: "COBRA" (S2MS-6A582-A/B and S1MS-6A582-P) and "MUSTANG" (C5ZZ-6A582-A/B) versions are not made by Scott Drake, and will not clear roller rockers**

## EXHAUST SYSTEM

### EXHAUST HEADERS

#### HI-PERFORMANCE 6 CYL. EXHAUST HEADERS

We believe that a properly modified 6 cyl. will put out as much usable low RPM horsepower as a V8. We offer both the single and dual outlet versions. Single outlet is recommended if no other modifications will be made. Dual outlets work best with Hi-Po Camshaft, 2V carb and Pertronix Ignitor. Single outlet also works well with these modifications. Dual outlet is for customers that want the look and sound of a V8. We recommend buying an exhaust port divider (part # C3OZ-9430-EPD) which smooths out air flow between the #3 and #4 cylinder. Will fit Mustangs, Falcons, Rancheros, Comets, Fairlanes, Torinos, and Mavericks. See "Engine" category for Hi-Po Camshaft.

### JBA BIG BLOCK, TRI-Y EXHAUST HEADERS

JBA's Tri-Y long tube headers for 390/428 give you the power you're looking for in a package that fits like no other. JBA's designs

are application specific to best fit the engine/transmission combination in your Mustang. They also feature big 1-3/4" primaries that flow in to 2-1/4" secondary tubes and terminate in a big 3" collector. Plus they are designed to give maximum ground clearance for street or track use. With heavy-duty stainless steel tubing, thick 3/8" laser-cut flanges and JBA sealing dome collector, you don't have to worry about leaks caused by lesser materials. \*Note for JBA-6656-S: 69-70 cars with factory reinforced shock tower may have minor clearance issues. If you are running standard 390 heads versus 390GT heads we can special order you correct headers for the same price.

### JBA SHORTY EXHAUST HEADERS

Custom built premium quality headers. Compare these features to the competition. Precision laser cut

3/8 inch flanges, Mandrel bent 14 gauge tubes, Patented fire cone which optimizes scavenging, lifetime warranty by maker, sealing dome technology, industrial nickel plating, installation instructions, gaskets and mounting hardware. We feel these are the best headers on the market. Note: 64-65 Mustangs will require 1966-1970 motor mounts and brackets for proper clearance (see "Engine" category)

### FOG LIGHT BARS & BRACKETS

#### FOG LIGHT BAR

We believe that we offer the best quality at a price that is reasonable and

competitive. Ours are just like the originals - these are pressure die cast in zinc. This process is very expensive, but is the only way to produce a part with high detail and a smooth polished finish, which is the first step toward a superior chrome job.

## DASH PADS

### MADE FROM ORIGINAL FORD TOOLING

Scott Drake Mustang and Universal Urethane have gone to great lengths to make their dash pads the best on the market. We start by using Ford's Original Tooling. Next we went to Ford's original supplier of vinyl for exact grain and texture. These dash pads are the finest available and easiest to install.

## DOOR SILLS

### LIGHTED SILL PLATE

These sill plates are constructed of 304 stainless steel, not lightweight aluminum. We also gave it a bright, polished finish, and added brushed GT type stripes for a retro look that will keep it looking great for years. Additionally featured is a custom logo with a cool blue luminescent light that glows when the doors are opened. In daylight or at night, our lighted sill plates will turn heads. Simple installation makes this a "must have" part for your Mustang.

## RALLY PAC DUAL GAUGE HOUSING

Rally Pac housing and bezels are now available without gauges so that you may add your favorite

gauges for a custom project. Our housing can be mounted on the steering column or under the dash with the use of various brackets, available separately. Modifications are required to make aftermarket 2 5/16 inch gauges fit our housing and bezels. Included in this package are 2 chrome inner bezel rings and 2 gauge mounting compression rings.

## POLISHED ALUMINUM BULLET

Another creative custom accent by Scott Drake. We have precision machined our

aluminum bullets and finished them off with a beautiful polish. These look great on the face of the Tri-bar head lamps or as replacement center ornaments on a 1966 Rally Pac. Limitless possibilities for all other cars as well. Use silicone adhesive to secure.

## RALLY PAC

This is the Ultimate accessory for your 65-66 Mustang. Our Rally Pac features a modern air-core movement tachometer and a quartz movement clock. Both the clock and tachometer faces feature the original style fonts and are back lit for improved visibility at night. The housing and bezels are pressure zinc die-cast from our own tooling and coated with

a tough Du Pont® crinkle texture. Our Rally Pac's include all of the brackets, color coded wire harnesses and easy to follow installation instructions.

- Available in the 6 most popular 1966 Mustang interior colors, new Satin chrome, or any original interior color by special order.

- Available for 6 or 8 cylinder engine applications.

### 1967 UNDER DASH GAUGE POD ASSEMBLY

We are proud to have the Scott Drake name on this Gauge Pod Assembly, an authentic reproduction of the

original 1967 Shelby under dash gauge pod! Features Stewart Warner green line gauges and a tough, crinkle coated housing. Includes oil pressure & Amp gauges, mounting bracket, face plate, and all hardware and connectors needed for proper installation. Fits 1967 Shelby and 1967-68 Mustangs without center console. Universal fit for other under dash applications may also be possible.

### ACCUMATCH™ DETAIL BLACK PAINT

Scott Drake Enterprises worked directly with PPG, a Leader in paint technology, to come up with this formula that when cured becomes a very durable chip resistant coating with the correct 15% gloss that

should be used on engine compartments and many chassis components throughout the car. This has quickly become the paint of choice for many Restorers. Please note due to the nature of this product cooler temperatures and high humidity will increase drying times.

## EXTERIOR TOUCH UP PAINT

These convenient 12 ounce aerosol cans are perfect for minor touch ups on the daily driver. Great for lower valances, door jambs, underhood, inside trunk area and misc. spot repair. These are made from the

original paint supplier to Ford in the sixties using the exact same lacquer formulas that Ford used. The 3rd digit in our part number is Ford's paint code that you will find on your door data tag. Please note that due to the fact that most cars have been repainted and there are many types of paint (synthetic enamel, acrylic enamel, lacquers, clear coats, etc.) plus deterioration and fading of older paint we can not guarantee a match. Note: Paint is not returnable.

## INSULATION & SOUND DEADENER

### ACCUOUSTISHIELD™ COMPLETE INSULATION KITS

Along with the obvious benefits of automotive insulation, our customers report that their automotive air conditioning is greatly improved because the cool air produced by HVAC systems is captured and maintained inside the vehicle. Audio systems also perform better according to other customers. When the vehicle body is completely insulated, sound way transfer is virtually eliminated and audio system performance and clarity is greatly improved. Our customers report that they can reduce the speaker volume by as much as 50 percent with the installation of AcoustiShield.

## HUSHMAT MEGABOND SILENCER INSULATION

Eliminate road noise, vibration and add thermal insulation with premium damping products from Hushmat. Hushmat

offers more than 18 years in automotive OEM experience! HushMat Megabond Silencer is the perfect material to use to reduce heat transfer from your big engine, drive train or exhaust and reduces the high frequency noise caused by road surface variation (tire noise), engine noise, and wind noise passing behind trim panels. Aggressive butyl based adhesive on back for one step peel and stick application. Stick to sheet metal or fiberglass vehicle surface or directly onto aluminum surface of HushMat Ultra vibration damping material for the ultimate COOL & QUIET interior.

### EXTRA STRENGTH EXPORT BRACE

We made these export braces from the Ford print. Heavier than other reproductions. Exact details with correct

deep draw stamping. Available in 3 finishes to compliment any engine compartment. Our export braces fit without prying and jumping on the front end. Greatly reduces twisting of the chassis. Also strengthens the front end and helps reduce shock tower fatigue and cracking.

## MONTE CARLO BAR

This extra support also helps prevent shock tower stress cracks. Copied from the original design, our bars feature a new thicker diameter tube and improved fender brackets. We have also stamped square holes in the top of each fender bracket to allow for the use of lower profile carriage bolts. Also available with Heim joint ends, for 65-66 Mustangs, for smoother operation.
