LOWEST PRICE GUARANTEE

Our guarantee is simple! You always get the BEST QUALITY parts at the BEST PRICE! Show us the same brand part/item and style advertised in any current magazine, catalog or website and we'll match their current price, simple as that! This offer is available only at the time of purchase and applies only to stocked merchandise. This offer cannot be combined with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts and shipping and handling charges are excluded.

ECKLER'S GIFT CERTIFICATES

Can't decide? Eckler's gift certificates are the perfect gift.

THE BEST PARTS AT THE BEST PRICE

More than just a slogan, Eckler's is committed to providing the highest quality parts at competitive prices. We select your parts exclusively from the world's leading brand name manufacturers to provide you technically correct parts of the very best quality. (Whether you need a single repair part or are undertaking a major restoration project).

YOUR SATISFACTION GUARANTEED

Part of our commitment to you:
If for any reason you are not completely satisfied with any product, simply return it for a full refund, credit or exchange, your choice.
No hassles.

SAME DAY PROCESSING ONLY \$3.95

Eckler's standard order processing time for U.S. orders is 24 hours. CALL us Monday thru Friday before 1:00 p.m. (EST) and request same day processing, for just \$3.95 we'll process all in-stock parts through the warehouse same day. Next day delivery is also available, ask your Sales Representative for details.

WeatherShield

INDOOR/OUTDOOR

1968-82 WeatherShield® Car Cover

- **"The" Ultimate Car Cover Fabric**
- **Repels Water Better, Keeps Car Drier, Packs Small And Light, Dries In A Flash**

The WeatherShield® Car Cover manufactured by Covercraft is the standard in top of the line car covers. It keeps your Corvette drier, is softer against your paint's fine finish, dries faster and breathes better than anything on the market today. Combine that with the fact that it has special UV inhibitors and you've got an

unbeatable combination. Technically speaking the fabric is different because the one-layer fabric goes thru the Nextec® encapsulation process which non-technically speaking is the very best way to make an extraordinary fabric. In fact this process also gives this fabric a 9 out of 10 rating for simple dust protection too! The WeatherShield® cover has these quality features; double stitched seams, neoprene elastic front and rear for a snug fit and reinforced, non-scratch grommets for optional lock.

INDOOR/OUTDOOR

1968-82 Aqua Shed Tri-Tech Gray Car Cover

- Protects Your Valuable Paint Finish, Indoors Or Out
- Custom-Fit • Water Resistant
- Three Layers Of Breathable Protection • Scratch-Proof Grommets
- Ideal For Indoor & Outdoor Use • Includes Storage bag

A great value for the money, the Aqua Shed Tri-Tech 3-layer car cover from Eckler's is lightweight, breathable, totally UV treated and highly water-resistant. It protects the exterior from heat build-up, ultraviolet rays, dirt, sap and other pollutants while retaining the breathability needed to prevent paint deterioration. Soft on your Corvette's finish. The Tri-Tech car cover dries quickly and stores compactly. Each cover is custom-fit with a hemmed bottom, double stitching, elasticized at the front and rear for a snug fit. Scratch-proof grommets are built-in for an optional safety lock and cable. Protect your valuable Corvette the right way with an Aqua-Shed Tri-Tech car cover from Eckler's

INDOOR

1968-82 Mosom Plus™ Car Cover

- Filters Out Dust
- Non Scratch, Soft Inner Lining
- Lightweight And Durable

Mosom Plus™ is a four layer material. The outer two layers are Spunbond Polypropylene, the middle layer is a special microporus film and the inside layer is super-soft fabric. The middle layer is an excellent rain barrier, while allowing for vapors to pass through. The special cotton flock inner layer pampers the most delicate paint finish. It is a great choice for all-around car

cover use, suggested for most conditions except extreme sun, snow or ice. Mosom Plus™ is a non-woven material, so in the unlikely event a rip occurs in the material, it will not run.

1968-82 Aqua Shed Premier Tan Car Cover

- Best Water Repellency • Custom-Fit
- Four Layers: Bicomponent Strength Layers, Bicomponent Layer, Microporous/Breathable Barrier Film & Soft Bicomponent Spunbound Layers
- Scratch-Proof Grommets • Ideal For Indoor & Outdoors
- 5-Year Warranty • Includes Storage Bag

Looking for a superior car cover? The Aqua Shed Premier car cover is the best overall car cover you can buy! This unique 4-layer cover is manufactured using the newest, state-of-the-art production technology. Four high-tech materials are ultrasonically joined for multiple layers resulting in maximum

protection for your Corvette. The inner core is a soft spun-bound layer designed to preserve your beautiful paint finish. The second layer is made up of a microporous/breathable barrier. The third and fourth layers are bicomponent layers with the outer layer adding overall strength, UV resistance and durability to the cover. This combination results in an exceptionally high strength-to-weight ratio, with the "soft touch" necessary for today's water-based paint finishes. Scratch-proof grommets are built-in for an optional safety lock and cable. Protect your valuable Corvette with an Aqua Shed Premier car cover from Eckler's!

1968-82 Aqua Shed Plush Gray Car Cover

- Excellent Water Protection & Breathability
- 4 Layers Protects Against Impacts
- Custom-Fit • Scratch-Proof Grommets
- Ideal For Indoor & Outdoor Use
- Includes Storage Bag

The Aqua-Shed Plush car cover from Eckler's features a 4-layer polypropylene construction for maximum protection in all weather conditions. Acid rain, industrial pollutants, tree sap, and bird droppings will not harm the fabric. The unique 4-layer construction does an outstanding job of resisting moisture, while allowing air to circulate through the fabric. The fabric's 4-layer thickness absorbs impacts better than any other car cover fabric to help protect the finish from nicks, dents and scratches. Scratch-proof grommets are built-in for an optional safety lock and

How To Get the Most Out of Your Nose Mask

Nose masks are absolutely great for protecting your paint from road hazards and bugs. They should be used as temporary protection and should not be used on your car as a permanent fixture. Prior to installing your mask at anytime make sure your front end is free of dirt or bugs. The proper fit of your mask depends greatly on how much time and effort you put into the installation. Nose masks generally do not 'fall on the car.'

Thanks for choosing the best nose masks available!

1968-82 "Nip Chips" Fender Protectors

- Invisible Fender Protection
- High-Impact Plastic

"Nip Chips" protect the vulnerable area just in front of the rear wheels. They install with a clear, double-sided tape at the top and the stock rocker molding screw at the bottom. The specially selected tape enables "Nip Chips" to be removed for shows and reapplied afterwards.

A3173

21.99 pr.

1968-82 Cleartastic Paint Protectors

- Protects Paint From Stone Chips
- Reusable, Adheres By Static Electricity

A great way to protect your paint. To apply the pre-cut, flexible film simply press it on. To remove, just peel it off. The clear, thin film lets the body color show through so that the product is almost invisible.

1968-73 Custom Bubble Taillight Lenses

- Replace Stock Lenses

Eckler's custom acrylic lenses are the same size and hole pattern as the 1968-73 factory lenses. Remove the stock lenses and re-install the bubble lenses with the existing screws.

A6872 Set of Four 24.99 set

* Note: Can be used to cover 1975-82 taillights

1974-82 Custom Taillight Conversion Kits

- Easy To Install Kit

This kit allows installation of bubble lenses on 1974-82 Corvettes. Kit fits both urethane and fiberglass bumpers. The supplied housings mount to the bumper with two screws and scotch-lock the new inner light sockets into place so that you have four brake lights. No cutting of wiring necessary. The stock, outer twist-in tail-light sockets fit into the new housings. Kit includes lenses, housings, gaskets, sockets, screws, bulbs, flasher and instructions. No permanent modifications.

A6874

79.99 kit

1980-82 Taillight Louvers

- Easy Installation
- Durable ABS Plastic
- Can Be Painted To Match

Add a designer touch to the rear of your Corvette.

For an even more custom

touch, louvers can be painted body color. Note: Check your state and local laws before installing. Attach using existing screws.

A5266A

1975-82 GT Styling Black-Out Kits

- Available In Smoke Gray Or Carbon Fiber
- Signals Show Through
- Easy Installation

Add a striking new styling element and dramatically enhance the appearance of your Corvette! The Black-Out Kit is easy to install and requires no modification to the body. Both the taillights and turn signal lamps are easily seen through the polished smoke acrylic. Mounting hardware and instructions included. Available as a kit or fronts or rears only. Limited lifetime warranty. Note: Check your state and local laws before installing.

Laser Shield® License Cover

- Diffuses Incoming Laser Beams
- Does Not Obstruct View Of License Numbers

Laser guns emit a laser beam which is bounced off a flat, perpendicular, metallic, reflective surface on your vehicle. This specially designed cover works to absorb and diffuse the incoming laser beam. Significantly shortens the effective distance of laser guns. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

88-0351-1 24.99 ea.

51689 39.99 ea.

Black Zinc Alloy Metal Corvette License Plate Frames

- Top Mount
- Lower Has Tabs To Hold License Plate To Prevent Rattles

These black zinc alloy metal frames say it all. Top mount will work with most Corvettes.

55210	"Don't Try It-You Will Lose"	34.99 ea.
55211	"We Brake For Mustangs"	34.99 ea.

55210

55211

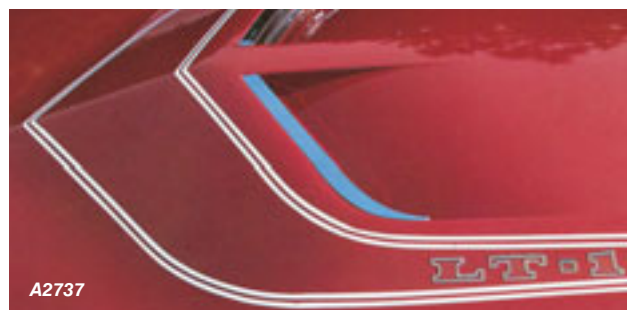

The Super Protector® License Plate Cover

- Protects Your Privacy
- Blurs Numbers From Side View & Overhead
- Numbers Visible From Straight On View

How does "The Protector" work? Photo-radar and photo-laser operate at known angles to the direction of traffic flow. Using a passive, state-of-the-art light-bending lens, the camera is unable to see the plate numbers, and identify your vehicle. The license plate is still readable from straight on.

Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

45076 39.99 ea.

1978-79 Underhood Light Turn Off Switch With Single Terminal

- Turns Off Courtesy Light
At Your Discretion
- Ideal For Prolonged
Work/Shows

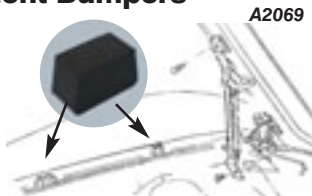

Turn off the underhood courtesy light with a simple flip of the switch and prevent a dead battery. Simply plug in the supplied harness, no cutting or splicing is required, mount the switch and you're done in less than 15 minutes. All mounting hardware, including the "Flex Guard" conduit is supplied for a "factory installed" look.

1968-82 T-Top Roof Panels

- Direct Replacements For Original T-Tops
- 3 Choices – Mirrored Smoke Gray Glass, Reflective Black Glass And Blue Acrylic
- Completely Assembled, Ready to Install

All three tops are a direct replacement for 1978-82 Corvettes and with a minor 10 minute adjustment, will fit all 1968-77 models. Glass tops utilize LOF tempered glass. Of the two, the mirrored smoke gray glass has a greater light transparency and both have a smoke-gray appearance as you look out through the glass. Blue acrylic tops have a scratch-resistant coating. All tops are manufactured to factory specifications and utilize GM weatherstrip. Hardware and instructions included.

1968-82 Corvette T-Top Roof Panels, Glass Replacement Service

- Costs Less Than New Top

Replace the broken glass in your T-Tops. Glass used in replacement is only available in LOF mirror. (No blue glass available M1131). Because of color differences, it is recommended that the glass be replaced in both panels. Please allow 3-4 weeks turn-around time for this service. Weatherstrip if damaged can be replaced at an extra cost

Did you know? Many people in our hobby refer to t-top roof panels as glass t-tops, moon roofs, targa tops and glass tops.

Send roof panels to:

1968-82 Rain Coat® Sport Tops

- Canvas Soft Top For Coupes
- Folds For Compact Storage
- Easy To Install and Remove

The "Rain Coat" from Fox Enterprises Inc. is a soft top for all 1968-82 Corvette coupes. It replaces the heavy stock roof panels to give you the convenience and flexibility to install a lightweight, easy to handle roof when beautiful "convertible" days turn sour. The "Rain Coat", made of soft, top quality canvas with injection molded inner foundation, installs quickly utilizing the car's stock mounting points. Velcro seals across the front and back of the "Rain Coat" for a snug, windproof, watertight fit. All "Rain Coats" have been designed and tested to be used at normal highway speeds with no problems. Storage bag included.

1968-77 Luggage Rack Mounting Repair Kit

This kit includes all the hardware you need to refurbish factory design chrome and stainless steel racks. Instructions included.

A2194A	For Chrome Racks	59.99 kit
35305	For Stainless Steel Racks	57.99 kit

1968-75 Luggage Racks

- Available In Chrome or Stainless Steel
- Factory Original Design
- Ready To Bolt-On

Luggage rack is a direct replacement for original factory 6-hole chrome rack. Rack mounts easily on Corvettes not previously equipped with a rack by drilling 6 holes in the rear deck and bolting in place. Complete hardware and instructions included. Factory roof panel holders will NOT fit this rack.

All speedo/tachs received into our shop are disassembled and go thru the following procedure:

- All parts are cleaned and inspected for wear.
- All worn parts are replaced with new factory parts.
- Note: **Parts are extra.**
- Faces are cleaned and polished.
- Pointers are repainted.
- Tach red lines are repainted.

Speedo/Tachs are reassembled, tested and calibrated to factory specifications.

**For professional restoration and repair by our Corvette service specialist, all you have to do is: 1.) Complete our postage prepaid order blank leaving the total amount blank (include your credit card number as only credit cards can be accepted for our restoration service, 2.) Send the item UPS prepaid and insured along with the completed order blank, and we'll handle the rest. Please allow 4-6 weeks turnaround time for service on tachometers, and speedometers. During the spring time frame where we must process high volumes of gauge restoration services the turnaround time may be 2 to 3 weeks longer than normal. Send your speedometers and tachometers to: Eckler's Gauge Service 24 Leisure Lane, Jackson, TN 38305.

1978-82 Speedometer Conversion Service

- Upgrade Your Speedometer To 140 Or 165 MPH
- Looks Just Like Original

To upgrade your 1978-82 speedometer, send it to: Eckler's Gauge Service 24 Leisure Lane, Jackson, TN 38305; freight prepaid and insured. Allow 2-3 weeks turn around time. The cost for the conversion service is listed below and depending upon the condition of your gauge, additional parts may be required. We will notify you if additional charges are required before the service is completed. Include return address and credit card information.

[With Standard Mechanical Movement] 169.99 ea.

A9841 Clock Restoration** †
[With Quartz Movement] 169.99 ea.

† Worn Parts Extra

CLOCKS-MECHANICAL

All clocks are completely disassembled.

- Clock movements are cleaned, inspected, worn parts are replaced, oiled and calibrated for proper time keeping.
- Clock faces are cleaned and polished.

Clocks are then reassembled and tested for accuracy and reliability.

CLOCKS-QUARTZ CONVERSIONS

Same procedure as above apply except for installation of a new U.S. Made quartz movement.

**For professional restoration and repair by our Corvette service specialist, all you have to do is: 1.) Eckler's Fiberglass Repair Materials

Eckler's Repair Materials will work on all fiberglass types used on 1953-72 Corvettes. **These repair materials are not formulated to work on 1973 and later Corvettes with SMC body panels.**

Shelf Life Note: Eckler's repair materials, except for spray gelcoat, have an approximate shelf life of six months, depending upon usage and storage conditions. Eckler's Spray Gelcoat should be used within 90 days for best results. *Cannot ship by air.

Spray Gelcoat

The only product available that will permanently seal errant fiberglass strands. Spray gelcoat's unmatched sealing qualities also prevents body fillers from bleeding through. MEKP hardener included. Usage is approximately two gallons for an entire Corvette.

10710	* Gallon	94.99 ea.	10709	* Quart	28.99 ea.
-------	----------	-----------	-------	---------	-----------

Bonding Adhesive

Eckler's "Original" bonding adhesive is specially formulated to provide unsurpassed adhesion when bonding or repairing fiberglass. Easy to mix cream hardener is included. Adhesive cannot be used as a surface filler.

10704	* Gallon	79.99 ea.	10703	* Quart	24.99 ea.
-------	----------	-----------	-------	---------	-----------

Resin

Eckler's resin is specifically formulated to provide outstanding adhesion and cure hard without shrinkage. MEKP hardener included. Not to be compared to general purpose resins.

10708	* Gallon	Disc.	10707	* Quart	21.99 ea.
-------	----------	-------	-------	---------	-----------

Body Filler

Eckler's body filler is formulated to virtually eliminate intolerable shrinkage, pinholing and bleed-through found in other fillers. Cream hardener included.

10706	* Gallon	Disc.	10705	* Quart	21.99 ea.
-------	----------	-------	-------	---------	-----------

Repair Material Return Notice: This product must be returned within 30 days of ship date in order to return or receive a refund . No exceptions.

Choose What's Right For You...

Hand Laminated or Press Molded Fiberglass Body Parts

Hand Laminated

Hand laminating fiberglass is a great manufacturing process for low volume production or when making parts with compound curves. In fact, Eckler's has been using this process since 1965. Eckler's process begins with three mills of gel coat sprayed into a female mold to form the smooth outer surface. Next, resin is painted by hand onto the gel coat, followed by the "laying-in" of three layers of mat and resin. The mat and resin are then carefully rolled out with a hand roller to eliminate air bubbles and to assure uniformity. This very process allowed Eckler's to create unique parts like the one-piece front end, which is stronger and easier to install than the factory multi-piece units. Now, some thirty years later, Eckler's is still manufacturing its parts with the hand lamination process. This time honored system, combined with Eckler's use of only automotive grade resins and gel coat produces a beautifully smooth, strong, and easy sanding part. In addition, hand laminated parts from Eckler's are a less costly alternative than equivalent press molded products. The only feature hand laminating does not provide is a smooth inside finish. And, it's this look that is prized by purists to keep their Corvettes perfectly original looking. In a nut shell, that's the story of hand laminated fiberglass.

Press Molded

Press molding is also a simple method of manufacturing, but costly from a tooling standpoint. Press molded parts are made with a huge hydraulic press which holds large male and female steel tools (molds). Fiberglass mat and resin is placed between the tools and pressed together under extreme high pressure and heat. This process is ideal for manufacturing high volumes of parts with a perfectly uniform thickness that are smooth on both sides (just like the original). However, press molded parts do not have a gelcoat finish nor does it

allow the production of large parts requiring compound curves. Thus the need for bonding strips. An alternate means of producing fiberglass with the same appearance of press molded, is low pressure molding. With this method, fiberglass mat is precisely cut and placed inside a two-piece closed mold. Resin is injected into the mold and once cured, produces a part smooth on both sides. Both the press molded and low pressure molding process offer the restorer a quality, original appearing fiberglass part.

The Final Choice

Of course the final choice is yours, what's important to you and you alone, originality, cost, ease of installation. It's your call and it'll be right if you choose Eckler's!

Hand Laminated Fiberglass or Injected Molded Urethane Bumpers

Flex-Fit Fiberglass From Eckler's

Eckler's also manufactures its hand laminated bumpers with a specially formulated flexible resin. This new material creates a bumper with the flexible feel of urethane while maintaining all of the good fit and finish qualities of Eckler's original fiberglass parts.

Hand Laminated Fiberglass

As described above, hand laminating fiberglass is a simple, effective way to produce small quantities without the expense of costly steel tooling. Since 1974 Eckler's has been hand laminating distortion-free bumpers. Bumpers that look immaculate on Corvettes that are flawlessly prepped on the outside. The only feature fiberglass lacks is the inability to sustain a minor crash impact without cracking. Yet, for all of its good qualities the hand laminated part is still distinguishable from the urethane because it does not have a smooth inner surface nor does it have the flexible feel to the touch of the Flex-Fit and urethane bumpers.

Injection Molded Urethane

In 1973 GM made its first urethane front bumper for Corvettes. The technical name for the process of building ure-

thane bumpers was called reaction injection molding or R.I.M. for short. The process requires injecting urethane into a closed steel tool. The urethane reacts to the heat applied to the mold, cures and a flexible part is produced. A flexible part was required by the Federal Government in 1973 so that a car/Corvette could sustain a 5 mph crash without damage. Unfortunately, the urethane materials originally utilized thru 1982, produced a part that often became wavy producing a highly unattractive look. In addition, the original material gave painters fits because they could rarely get a good paint match between fiberglass and urethane.

Today, Eckler's builds its GM Restoration Parts Bumpers from the original General Motors Tooling, using new enhanced urethanes, virtually eliminating problems of the past. The process (R.I.M.) is the same but the bumpers remain distortion-free, yet they retain the original flex capabilities. And best of all, paint matching is no longer a problem. For the purists, it's the real McCoy and indistinguishable from the original!

The Final Choice

The final choice is of course a toss-up. It's your call - 100% originality or the lure of a great part at a better price.

Fiberglass Repair Materials – See Next Page

Restoration Formula Panel Bonding Adhesive

Same color, consistency and texture of the material originally used at the factory (thru the 1972 model). Excellent bonding and finishing characteristics. Adheres to all press molded and hand laminated fiberglass. MEKP hardener included.

34266 Gallon (Cannot Ship By Air) 149.99 ea.

Hardener

Needed in colder climates to accelerate curing of materials.

10721 MEKP * 11cc tube 4.99 ea.

10702 Cream * 4oz. 9.99 ea.

Fiberglass Mat

1-1/2 oz. mat is for use with Eckler's resin.

10712 50" x 36" 12.99 ea.

10713 50" x 108" 24.99 ea.

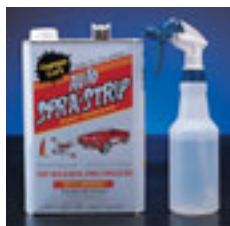

Roller

10720 1/2" x 3" Roller 9.99 ea.

Spra-Strip Paint Remover

Quickly and easily removes paint without affecting the factory gelcoat (when properly used). Spra-Strip works well on the following paint finishes: lacquer, enamel, iron, acrylic, epoxy and polyurethanes. Supplied in a one gallon can. Spray bottle included.

88-0169-1 39.99 gal.

Cannot be sold to California or Canadian customers

Repair Materials for SMC (Sheet Molded Compound Fiberglass)

Epoxy Bonding Adhesive

Manufactured by Lord Corp., Fusor Epoxy is ideal for general repair and bonding of SMC fiberglass. Two-part mixture.

27281 * 2-Quart Unit 119.99 kit

Resin (Sheet Molded Formula)

10698 * 1-Quart Unit 36.99 ea.

Body Filler (Sheet Molded Formula)

10701 * 1-Quart Unit 24.99 ea.

Repair Material Return Notice: This product must be returned within 30 days of ship date in order to return or receive a refund. No exceptions.

*Cannot be shipped by air.

50mil Cartridge Epoxy Bonding Adhesive

- Smaller Amount For Smaller Jobs
- Used For Sheet Molded Compound Fiberglass

IMPORTANT REPAIRERS NOTE:

To help you identify what material your original parts were made of and to assist you in selecting the proper repair materials, please read the following:

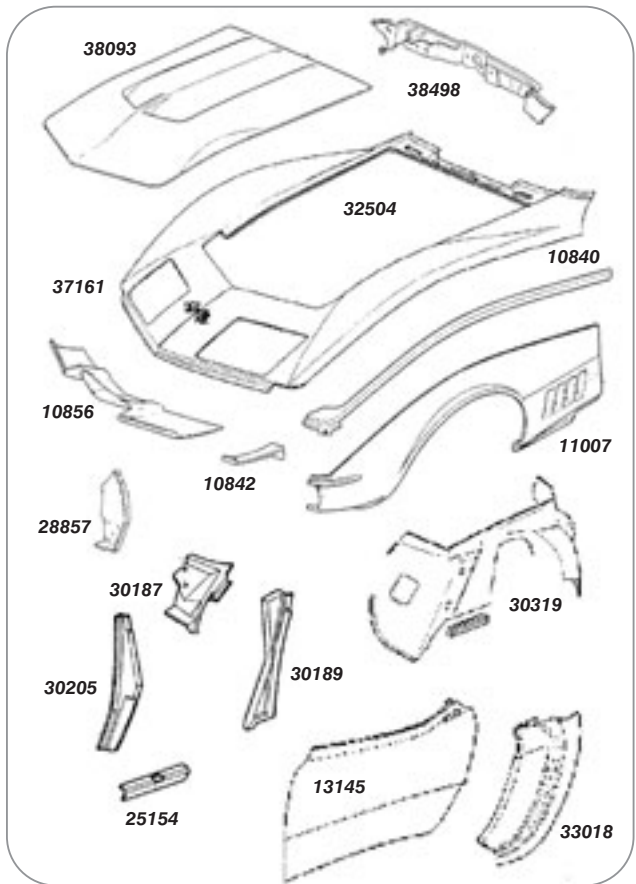

The general rule of thumb is that GM press molded 1968-72 Corvette parts with Mat and Resin compound and 1973-82 parts with SMC (Sheet Molded Compound) compound. Mat/Resin parts can be identified by the fiberglass strands appearing on the surface of the parts. SMC has a smoother, marble-looking appearance, and normally gray in color.

Jig-Fit Assembled Front Ends

- Precisely Assembled In A Fixture Ready To Install
- Original Factory Adhesive Color & Texture
- Includes Correct Header Bar & Bond Strip

44476	1968-89		4204.99 ea.
44477	1970-72		4204.99 ea.
48321	1973-74		4399.99 ea.
48322	1975-79		4399.99 ea.
48323	1980-82		4299.99 ea.

Because some parts overlap both series of years, an example is 1969-82 Outer Door Skin, the part may only be available in one of the material compounds. Also GM Service Parts (replacement parts purchased through a GM dealer) for 1968-72 models were often times made using SMC versus Resin/Mat. So it's important to always check the part before ordering repair materials.

A code, either "R/M" for Resin/Mat, or "SMC" for Sheet Molded Compound, is listed by each of the following parts. This reference allows you to select the correct bonding materials, shown on page 56.

Hood Heights

This information will allow you to determine which Eckler's hood will give adequate carburetor clearance. From past experience, Eckler's hi-rise design hoods clear most intake manifold four-barrel combinations except tunnel ram. The measurements below are the heights of blocks placed in the drain rail on center with the carburetor. Laying a straight edge on these blocks will give the clearance to the underside of the hood.

1980-82 LT Body Panels

Give your Corvette a striking aerodynamic look with our 1980-82 LT Body Panels. All panels are fiberglass and are bolt-on installation. When it comes to fiberglass body parts, Eckler's hand laminated fiberglass is tops. You will find Eckler's Corvette fiberglass body panels are made of the finest automotive grade resins, 1-1/2 oz. mat (3 layers) and 21 mils of soft-sanding gelcoat. Eckler's panels are wave-free because of the heavily reinforced molds that are made from original GM panels and they are allowed to cure 24 hours before being pulled from the molds.

ECKLER'S®

1968-82 QUALITY INTERIOR TRIM

Another Exclusive For Eckler's
Restoration Club Members--

Only at Eckler's... Build Your Own Interior Package and Save 15%!

Typical interior package pricing offers a discount if you purchase a set combination of seat covers, door panels and carpet. Because everyone has different interior trim needs, Eckler's interior package plan allows you to choose an combination of the six major interior components. Order any combination of 3, choose from seat covers, seat foam set, door panels, dash pad, carpeting or convertible top and receive a 15% discount when you join Eckler's Restoration Club.*

Plus. . . receive 15% discount* on additional color-coordinated interior trim components when purchased with the package.

See inside front cover for details of all the benefits you receive when joining Eckler's Restoration Club.

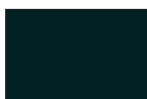

*Cannot be combined with any other discounted offer.

1968-82 Interior Color Codes

These codes simplify the ordering of interior trim. Locate the year, color, and code. When ordering, add a hyphen and code to the catalog part number. Example: To order 1972 vinyl seat covers in black, would be part number 28176-14. **Color code must be added to all part numbers where this symbol is displayed, †**

How To Select the Correct Size Leather Seat Cover for 1979-82 Corvettes

1. If you are using new Seat Foam, simply select Seat Covers and Seat Foam that match in size—either both 2" or both 4".
2. If you are using original Seat Foam, locate the end of the horizontal pleats (A) on the seat back's insert area.
3. Then find the middle of the double stitching line (B).
4. Now measure the distance between A & B. It will either be 2" or 4".

1970-78 Seat Bottom Frame Repair Plate

- Fixes Broken Frames Without Welding
- Simply Bolts Into Place
- Restores Seat Back Recline Positions To New Specs

Our plate is a beefed-up frame reinforcement unit that is bolted to the bottom of the seat frame with existing seat frame hinge strap bolts. When installing the repair

plate you don't even have to completely remove the seat cover or foam. The new plate is 3/16" thick, zinc plated steel and is drilled and tapped for the stock seat adjuster stops.

1968-82 Status Sill Covers

• Black Powder Coated Or Brushed Aluminum • Engraved with Corvette

Sills are easy to install interior enhancements. On 1968-77's, sills completely cover the center area of the stock sill. On 1978-82's, sills install to the inside of the existing stock sill, (Inner mounting holes must be drilled). *Uses your original door sill plates to achieve the depicted look. If your original door sill plates are scuffed or damaged order two additional A2303 Door Sill Plates for best appearance.

1968-82 KoolMat® Front Floor Insulation Kit

- Reduces Road Noise By 23 Decibels
- Significantly Reduces Heat
- Easy To Install • Custom Fit For All C3's
- 6-Piece Kit

Now your Corvette can have the same space age technology used by many NASCAR teams to protect their drivers from intense heat and noise. The C3 KoolMat® is a high temperature composite insulation, consisting of densified silicone cured directly into the surface and a weave of a fiberglass mat. KoolMat® will not separate, tear or easily puncture. KoolMat® fits under the Corvette stock carpet and is held in place with the supplied silicone adhesive. The 6-piece kit is easy to install and is only .070" thick.

80/20 Loop

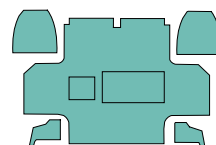

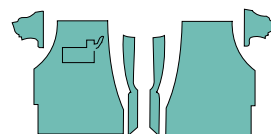

Cut Pile

All Eckler's Carpet Sets are manufactured for Eckler's by Auto Custom Carpets, the number one name in quality Corvette carpet.

Typical 1968-77 Set

Typical 1978-82 Set

1968-77 Carpet Sets

Carpet and jute padding are press molded at the same time, providing accurate contours for a perfect fit. All sets are made with the correct molded heel pad, dimmer switch pad and vinyl edge bindings. 1968-76 Corvettes with vinyl interiors and 68-69 with leather interiors were equipped with 80/20 loop carpet. 1970-77 with leather interiors and 1977 with cloth interiors had cut pile carpet. Available in complete car sets or front or rear separately.

ALL AUTOMOTIVE CARPETING NOT CREATED EQUAL -

As with household carpet, there are a variety of price ranges and quality issues to consider when selecting automotive carpet sets. While at a glance all automotive carpet may look the same, there is a difference in the content and weight of the yarn, quality of the dye, density of the loop, and more. Eckler's carpet sets are made to original specs with the correct materials by Auto Custom Carpet, the number one name in quality Corvette carpet. The benefit to you is proper fit, ease of installation, original appearance and long, long, life. As with most purchases, paying a cheap price rarely represents a satisfying value.

1968-82 Replacement Carpet Floor Mats

- Matches Original Carpet
- Available In All Carpet Colors
- Color Coordinated Binding
- Skid Resistant Backing

Replacement floor mats are made from the same carpet as our carpet sets and are quality manufactured by Auto Custom Carpets.

† **Important Note:** All floor mats require specifying carpet color and year of Corvette.

1968-82 80/20 Loop and Cut Pile

Available in 80/20 loop for standard vinyl interiors and cut pile for leather interiors. Both have color-matched "Corvette" logo heat-sealed onto carpet.

1968-76 AM/FM/iPod Stereo

- Looks Like Original Installed
- Smaller Body For Easy Installation **NEW**
- Todays Electronics
- Requires 4 Ohm Speakers • Imported

When this stereo is installed it appears to look just like the original Delco that GM put in from the factory. The AM/FM slide bar, chrome face and numbers look original. The best is that it has todays electronics, including ipod hook up. The body is smaller then original which makes for easy installation and if adding air conditioning gives more space behind the upper console.

1968-82 In-Dash & Kick Panel Speakers

• Upgrade Hi-Output Speakers

These are direct replacement in-dash speakers for 1970-82 Corvettes and are used in the kick panels as replacements on 1968-69 models. Add as Hi-Output speakers to the kick panels of 1970-82 Corvettes. Custom Autosound's Hi-Output 4" x 6" speakers produce great sound because of their air suspended speakers and 1-3/4" piezo tweeter. These 4 OHM speakers are rated at 30 watts.

1968-82 Custom Boom Boxes

- Drop-In, Pressure Fit Installation
- Available With Or Without Speakers

These custom-fit boxes are fitted with super 6" x 9" Audiovox or other custom speakers, each capable of handling 80 watts of power (4 OHM). The box pressure fits between the two rear wheel wells and looks like a factory option. The boxes fit all 1968-82 coupes and convertibles. These custom particleboard constructed boxes are available in the carpet colors listed below and include all necessary wiring and installation hardware. Note: When using the Custom Boxes with Delco stereos, we suggest using amplifier to drive the speakers to get the full potential of the speakers. Speakers are supplied in kit, but not mounted.

1968-82 Custom Autosound Bass Stereo Boxes

- Increases Base Response
- Removable

The Custom Autosound Bass Box will fit all 1968-82 Corvette Coupes. It wires to the speakers (rear in most cases) and can be set up to be removable so that you can use the speaker outside your Corvette for beach or party use. This box has two eight inch woofers and two tweeters. All units are supplied with gray carpeting installed.

33321

109.99 ea.

1968-82 Challenger Speakers

- 200 Watts - 6 Speakers
- Pressure Fit Installation
- Custom-Fit For Cargo Area

The Challenger speaker assembly requires no modification to install. Metal assembly has two 5" bass reflex speakers, two 3" mid and two 1" cone tweeters with matching crossover networks. The active bass ports, in conjunction with a maximum of 200 watts, allow crisp highs and astounding bass levels. Covered in black nylon velour, the Challenger system is easily dyed to match your interior color. On 1968-76 Corvettes, the courtesy light can be easily fitted into the foam center section of the assembly.

Calyx® Exhaust Manifold Dressing

To keep your cast iron exhaust manifolds looking concours-prepared perfect, use Calyx® Manifold Dressing. It applies with a flannel cloth and polishes to a silver shine in seconds. After the manifold is prepared with Calyx®, apply when necessary, very little upkeep is required. Application of the dressing does not require removal of the manifolds. Calyx® Manifold Dressing will not burn and is non-toxic. One container, 3 ounces, will do 3 sets of cast iron exhaust manifolds.

1968-82 Exhaust Pipes, Y-Pipes & Mufflers

• Aluminized Stock Replacement Systems

• Kit Includes: Pipes, Inserts, Packings, Clamps, Flanges & Mufflers

Replace your Corvette's rusted-out exhaust system with our aluminized coated steel or stainless steel exhaust pipes. The aluminized coated steel pipes and mufflers will last 3 times longer than the stock exhaust system and our stainless steel pipes and mufflers are backed by a manufacturer's limited lifetime warranty. Our mufflers are totally aluminized and are backed by a manufacturer's limited lifetime warranty. 1968-73 mufflers do not include exhaust tips. Our direct replacement systems are bent to factory specifications and all systems are available in either aluminized or stainless steel. The aluminized components are made of carbon steel and coated inside and out for long life. The 2" stainless steel components are made from 409 stainless. All components are supplied with installation hardware including all necessary pipes, clamps, flanges, donut gaskets and donut gasket inserts. Does not include hangers.

1968-74 Chambered Exhaust Kits

- Replaces Original Under Car Exhaust System
- Sounds Like Original Side Pipes
- Easy Bolt-On Installation
- Limited Lifetime Warranty

One of the sweetest sounds ever produced was heard on Corvettes with factory equipped, chambered side exhaust. Now you can enjoy the perfect exhaust note without the expense of the side pipe covers. These dual exhaust kits bolt on to the stock manifolds and route just like the stock manifolds and route just like the stock system. No modifications to the car are required. Kits include stainless steel exhaust tips, except for 1974 models. Not only will you get great sound, you'll also get improved performance plus a limited lifetime warranty on the chambered muffler. And unlike other less expensive

kits, our kit features heavy-duty, 14 gauge pipes. All necessary installation hardware is included. Available in aluminized or stainless steel. Specify manual or automatic transmission.

1968-74 Hooker Sidemount Headers

• Premium Chrome

or Painted Black Finish

• Set Includes Headers, Side Tubes, Mufflers and Hardware

• Decreases Back Pressure/Increases Horsepower

Hooker sidemounts are available for small block and big block applications. Both models feature the four-in-one styling and culminates into a 4" collector. The small block headers have 1-7/8" primary pipes while the big blocks boast 2-1/8" primaries. Hooker sidemounts fit any combination of air conditioning, power brakes or steering, and manual or automatic transmissions. Each header set comes with gaskets, bolts, mufflers and instructions. Not legal for sale or use in California. Please check state laws before installing. For Corvettes, order #26752 and #41064 alternator bracket's and #26753 air conditioning bracket if so equipped.

1968-74 Dura-Last Tach Cross Gear Kit

- With OE Distributor
- Eliminates Tachometer Failure
- Won't Destroy Mainshaft Gears
- Stainless Steel Or Bronze Construction

Before your stock tachometer drive gear destroys the distributor mainshaft, replace it with our Dura-Last Tachometer Cross Gear Assembly manufactured by High Tech Innovations. The factory tachometer drive gear doesn't get adequate lubrication causing metal to metal friction between it and the coupler. Then the drive gear seizes, shearing the teeth off the distributor mainshaft. Our Dura-Last gear assembly eliminates this problem because we put needle bearings between the gear and coupler. The bearings won't wear out and stay lubricated for a lifetime. Installation of the assembly takes about 5 minutes with regular hand tools.

1968-74 Pertronix Ignitor Electronic Ignition Conversion Kit

- Replaces Points & Condenser With Modern Electronic Ignition
- Huge Dwell Accuracy Improvement
- Never Requires Adjustment
- Bolts In Place Of Points & Has
- Simple Two Wire Hook-Up

There's absolutely no need to contend with the technology of the 60's and before, when you can bolt-in today's electronic timing benefits in the form of the Ignitor! This system works with any coil, MSD or Jacobs, aftermarket system, and gives you a huge improvement in your ignition dwell. Plus the whole conversion remains under the stock cap so for restorers the car appears dead stock. Technically speaking, this ignition has rotating cobalt magnets which trigger an electronic switching module commonly referred to as a "Hall" effect integrated circuit. Practically speaking, this means you'll always have perfect dwell regardless of how high you operate in the RPM band.

1968-74 Breakerless Electronic Ignition Conversion Kit

- Single Wire Hook-Up Makes Distributor Look 100% Stock
- Eliminates Points

Convert any 1968 to 1974 GM V8 breaker point type distributor with a windowed type distributor cap to a reliable solid-state electronic ignition, utilizing a fully integrated trigger and power module that fits completely inside the distributor. Unlike competitive systems, no additional wires protrude from the distributor, only the original points wire. The result is a state-of-the art ignition with an absolutely stock appearance. Emissions legal in all 50 states. No distributor modification, disassembly or removal is required for installation. 3-year warranty.

1968-74 Mallory Unilite Electronic Ignition Distributor & Points Style Distributor

- Electronic Ignition
- Maintenance Free Operation

The Mallory Unilite Electronic Ignition Distributor is now considered the industry standard. The device is triggered by a photo optic infrared LED that never wears out for dependable, accurate timing. This unit replaces the original distributor with a simple three-wire connection. Self-lubricating bushings provide long shaft life, while the high dielectric strength cap and rotor/shutter wheel combination prevent voltage leakage. An adjustable advance curve allows you to tune for performance. Tach drive connection. Not legal in California on pollution controlled vehicles. Also available as a points style distributor.

26551

494.99 ea.

1981-82 Hi-Performance HEI Distributor

- Produces 2X Output of Stock Coil

For more performance, bolt-in Performance Distributors' Hi-performance Distributor. This all new distributor is an excellent replacement for stock Corvette distributors and features solid brass terminals in the cap.

33145

299.99 ea.

1968-74 MSD Tach Drive Distributor

- Convert To Electronic Ignition
- Retains Original Tach Drive

Replace your worn out, outdated points distributor with MSD's electronic, magnetic pickup unit. CNC machined from 6061-T6 billet aluminum this distributor features ballbearings and sintered steel bushing shaft supports for long lasting performance. The mechanical advance is fully adjustable allowing for customized spark curves. Its magnetic pickup never needs adjusting and plugs directly into MSD's high performance ignition boxes. The vacuum advance feature is maintained for driveability and full economy, and its tach drive accepts the factory tachometer cable. An optimized spark curve combined with a stronger more consistent spark results in improved fuel economy, increased reliability, and smoother more powerful engine performance.

Must be used in conjunction with a MSD ignition box.

31360 Distributor 459.99 ea.

1968-74 HEI Distributor Conversion

- Converts Pre-1975 Vettes To HEI Ignition
- 2-Year Limited Warranty

Each distributor is actually spun on a distributor machine with a super smooth advance curve. Buying an uncurved distributor is like buying an unground camshaft. A smooth curve insures maximum power and mileage while eliminating engine damaging detonation. The D.U.I. distributor produces a longer duration spark which allows you to open up your plug gaps to a whopping .055". The Dyna-Module and 50,000 Volt D.U.I. coil work together to give your engine the ultimate spark. A wider gap and a hotter spark leads to more complete combustion. NO add-on spark box is needed. Each D.U.I. distributor is hand-built not mass produced and is individually prepped. Housings are polished and lubed appropriately. Shaft plates are welded for durability. Gears are wire brushed and end play is adjusted with a feeler gauge.

27518 Made in U.S.A. 479.99 ea.

1975-80 Mallory HEI Distributor

- Excellent Performance
- Replacement For Original
- Provides Improved Spark & Accuracy Over Original
- Bolt-In/Plug-In Installation

HEI distributors, when they were introduced in the 70's, ushered in a new level of ignition performance. Now, some 25-30 years later, the originals are mechanically worn out (bushings) and thereby cause inaccuracy in spark timing, not to mention the electronics no longer perform up to spec. Give your Corvette an ignition upgrade with Mallory's replacement HEI distributor. You'll get a hotter spark, on spec timing accuracy and a high performance mechanical advance system with adjustable vacuum advance. This distributor includes Mallory's high performance coil.

45582 238.99 ea.

1975-80 Hi-Performance HEI Distributor With Vacuum Advance

- Excellent Performance Replacement For Worn Original
- Provides Improved Spark & Accuracy Over Original
- Bolt-In/Plug-In Installation
- May be Supplied With Red Or Black Cap (No Choice)

HEI distributors, when they were introduced in the 70's, ushered in a new level of ignition performance. Now, some 25-30 years later, the originals are mechanically worn out (bushings) and thereby cause inaccuracy in spark timing, not to mention the electronics no longer perform up to spec. Give your Corvette an ignition upgrade with a high-performance replacement HEI distributor. You'll get a hotter spark, on spec timing accuracy and a high performance mechanical advance. This distributor includes a high performance coil.

46029 99.99 ea.

1968-74 HEI Distributor Conversion

- Converts Dated Ignition Systems To Modern HEI Technology
- Easy To Install
- Improves Engine Performance

Now with a simple distributor swap you can get all the benefits of HEI technology plus performance enhancements on top of the original HEI. For example the original HEI had a 38,000 volt module, pickup and coil, this unit provides 50,000 power packed volts! The original system had bushings in the housing, this model has needle bearings for smoother operation and longer life. Plus, this one-piece distributor has a 4340 hardened steel cam gear for use with all roller cams and brass terminals in the distributor for greater conductivity than the stock aluminum terminals. This unit simply bolts into place, all you have to do is run a 12 volt power lead to the distributor and add upgrades. Stock shielding must be replaced by 1975 shield and supports.

47935 189.99 ea.

1975-82 HEI-Chrome Distributor Cap Cover

Dress up your engine compartment with our chrome HEI Distributor Cap Cover. Cover simply snaps onto the stock plug wire retainer.

1975-82 Performance Distributors "Hi- Voltage" Coil Kit

- Produces Twice the Output of Stock Coil

The coil is remarkable in that it's capable of 7000 RPM's WITH 50,000

VOLTS OF POWER! To

back up the super high voltage spark, the coil is mated to a superior cap with bronze terminals and a special material rotor also with bronze terminals for rotors to prevent misfire within the highly charged cap. For those of you who like to experiment you may want to try plug gaps of .050-.055"; wider gaps expose more spark to the combustion chamber to yield even greater improvements. The result will be even easier starting, more power and possible gains in fuel economy. These kits will fit all 75-82 Corvettes and their installation does not alter factory timing nor affect the engine's computer.

A5805

112.99 kit

1968-74 90° Tach Or Speedo Cable Adapter

- Insures Smooth, Accurate Readings
- Increases Cable Life

For 68-74 Corvettes with severe tachometer cable binding, install our 90 Degree Tachometer/Speedometer Cable Adapter.

It allows you to run the cable straight into the adapter eliminating problems created by cable binding. The adapter attaches to either the stock tach drive coupler on the distributor or the transmission and requires no modifications to install. A grease fitting is built into the adapter to lubricate the adapter and grease the tach drive gear.

1968-82 Moroso High Performance Spark Plug Wires

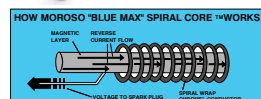

• For Use With

Headers

• Custom-Fit For Corvettes

Moroso's "Blue Max" Spiral Core Spark Plug Wires should be used whenever headers are installed. We've selected the Moroso brand for three very good reasons. First, they are made of the finest high temperature silicone available to withstand the extreme temperatures headers produce. Secondly, Moroso's unique 8mm "Spiral Core" design delivers the voltage carrying capability of a metal conductor with the radio noise suppression benefits of the stock wires, and these wires are routed just like the factory wires.

1968-82 ACDelco Rapid Fire Performance Spark Plugs

- Get 2% Better Gas Mileage
- Experience 27% Smoother Idle
- Guaranteed Easier Starting

ACDelco

ACDelco Rapidfire Spark Plugs feature an electrode system that can revolutionize your engine's performance. The splined, multi-point center electrode, extended ground electrode with a tapered center are what produce better combustion, smoother idle and faster starts. Set of 8.

1968-82 ACDelco Spark Plugs

- OEM Plugs • Cuts Radio Noise

ACDelco has a "totally correct" spark plug for your Corvette's engine. Sure, others will work, but none will perfectly complement the ignition system. ACDelco spark plugs are designed to achieve the optimum in engine performance when used in connection with ACDelco's total ignition system. In fact, the spark plugs even use a special resistance in the plug just for your engine so that radio interference is minimized. Insist on genuine ACDelco spark plugs!

1981-82 Hypertech Power Chips

- Produces Instant Power
- Improves Throttle Response
- Easy 15 Minute Installation

Would you like to reduce your 0-60 elapsed times by almost a 1/2 second, add up to 20 horsepower to your engine without a single modification or have your Corvette be 2.6 car lengths faster? You can realize these improvements by installing the Hypertech Power Chip. The Hypertech Power Chip is available in 2 types. Street Runner is designed for stock or slightly modified Corvettes or Thermo Master which has been further modified to allow the use of a cooler thermostat (160 degrees).

1968-80 Competition Cams' High Energy Cams, Lifters & Springs

As the one component in your engine that has the greatest effect on power, torque and mileage, Competition Cams' has designed 2 unique camshafts. They have the 260 & 268 series for 68-80 small block Corvettes. Each camshaft, lifters, and springs are described below.

260 High Energy Cam (Small Block): This cam is perfect for Corvette owners who want more power without affecting driveability. The 260 is very responsive and is an ideal replacement cam in L-48 engines. The 260 produces up to 10 horsepower over the stock engine and is used on Corvettes with a 3.08 or greater rear axle ratio. Specifications are .446" lift intake and exhaust, 260 degrees duration at .006" lift, 212 degrees duration at .050" lift with 110 degree lobe centers.

268 High Energy Cam (Small Block): This cam is for the high performance enthusiast. The 268 produces up to 15 horsepower over the stock engine. This cam has a slight lobe at idle but does not affect power accessories. The 268 will idle down to 600 RPM and still pull strong past 6,000 RPM. The 268 is an ideal replacement in L-82 engines. Specifications are .460" lift intake and exhaust, 268 degrees duration at .006" lift, 218 degrees duration at .050" lift with 110 degree lobe centers.

High Energy Lifters: When installing a new cam, installation of new lifters is a must! Use of old lifters voids the cam warranty. **High Energy Valve Springs:** When installing a 260 small block cam, use stock valve springs if they still maintain their like-new pressures. In cases where the stock springs have lost their tension or for all other cam installations, use Competition Cams' High Energy Valve Springs.

Note: Check your state and local laws on emission standards.

1968-82 Competition Cams' Magnum Roller Tip Rocker Arms

- Dyno Proven 20 Horsepower Gains
- Reduce Valve Stem & Guide Wear

Competition Cams' unique forge-cast roller tip design reduces friction. As a result it has been dyno tested to produce 15-20 horsepower increases and it makes valve stems and guides last longer. Magnum Rockers fit all 68-82 small block engines (1.52 rocker ratio) and all 68-74 big block engines (1.70 ratio). Each rocker is supplied with a rocker ball and lock nut. Set of 16.

A5761

1968-81 Edelbrock "Performer" Intake Manifold

- Improves Off-Idle Response, Dramatic Increase In Torque

The Edelbrock "Performer" is an ideal performance replacement for Corvettes with stock small blocks with performance cams and/or headers. The "Performer" dramatically improves off idle response and low end torque and extends all the way to 5,500 RPM. The QuadraJet carburetor bolts directly to the "Performer" utilizing all stock brackets, fittings and cables. Rejetting of the carburetor or other modifications are not required because the manifold fits under all stock hoods. Gasket is not included.

A5760	1968-72 Non-EGR Manifold	197.99 ea.
A5759	1973-81 w/EGR (1981 Corvettes must use the stock Rochester carburetor)	219.99 ea.
A5761	1968-81 Intake Manifold To Carb Adapter (Use For All Carbs Except Stock QuadraJet)	7.99 ea.
26873	1973-81 EGR Valve Adapter (Used w/20561 Carb.)	69.99 ea.

1968-72 Power+Plus Intake Manifold

- Fully Show Polished
- Dual Plane 180° Design Provides Outstanding Power From Idle To 5500 rpm
- For 327 Or 350 Engines

The Power+Plus Manifold is a direct replacement for the stock manifold on 1968-72 Corvette non-EGR engines. Use the stock Quadra-Jet carb or a 500 to 650 cfm vacuum secondary carburetor. Kit includes adapter plate to permit use of popular square bore carburetors. Power+Plus manifolds are cast from steel molds, not from sand molds. Permanent molds provide a tighter grain casting thereby reducing the occurrence of porosity which can mar the polished finish. Additionally, each Power+Plus manifold is 100% pressure tested for leaks to eliminate any installation problems. This manifold accepts late model choke, waterneck, A/C, alternator, and HEI. Has provision to add oil fill tube.

600 CFM Performance Carburetors

- Great Combo With "Performer" Intake

Our 600 CFM Carburetors outperform the stock QuadraJet and provide better mileage.

These carburetors work with or without an EGR valve and accept the Corvette stock throttle linkage and transmission kickdown mechanism. In addition, they have a universal 12 volt electric choke, vacuum/weight operated secondaries, vacuum advance connection, and PCV fitting. These carburetors have a single fuel inlet which requires a new fuel feed line, but the fuel filter and carburetor gasket are included. Use on an Edelbrock manifold requires the purchase of the carburetor base plate listed below. Used for small block application only. Note: When ordering, please remember that these Carburetors will not fit a stock QuadraJet manifold and some early small bore 56-64 manifolds.

A5964	Carburetor 600 CFM w/o EGR (Not legal for sale or use on pollution controlled vehicles.) +	359.99 ea.

1968-82 K&N Hi-Performance Air Filters

- Increases Air Flow Up To 57%
- Improve Horsepower
- Washable, Reusable Filter

A3493

There are 3 good reasons to switch to a K&N Hi-Performance replacement air filter.

1) it increases air flow, improving power and mileage; 2) it operates at a higher level of efficiency for a longer period of time than stock filters; and 3) it's a washable, reusable filter that will be good for the life of your engine. Sealing grease is highly recommended on all filters. AC filter numbers are listed in parenthesis after the year of car.

- 3/8" Taller For Rocker Arm Clearance
- Classic Appearance With Raised Corvette Script & Fins
- Thick Machined Gasket Flange For Secure Fit
- Clean Inside For Maximum Clearance
- Made In USA

54658

54659

These PML valve covers feature raised CHEVROLET script and fins. They are taller than stock and fit Chevy™ big block engines. The valve covers have PCV and oil fill/breather holes and baffles cast into the covers to prevent oil leaks. These covers are 3/8" taller than our standard height covers to fit over most roller rockers, such as Jesel. The covers use stock grommets and gaskets (not included).

1968-82 Ultra-Seal Valve Cover Gaskets

- **Unique Gasket Material Swells To Control Leaks**

Ultra-Seal material provides a positive seal through controlled swelling of the gasket once exposed to hot engine oil. The polymers used in Ultra-20 also insure gaskets will not harden and fall apart like others can. Gaskets are coated with an easy release material which helps prevent tearing when the valve covers are removed.

-------	-----------

1968-82 Elite Series Valve Covers

- **Die Cast Aluminum • Low Profile**

These heavy-gauge aluminum valve covers come with a handsome, polished finish for a custom look. The raised fins are accented by a black matte background, then detailed with Allen hex heads that create a two-piece look from a one-piece construction. They are tall enough to clear aluminum rocker arms, yet low enough to clear A/C units and alternator brackets. No oil fill hole, use PVC hole.

1968-82 March Underdrive Aluminum Pulley System

- Adds Up To 20 Horsepower
- Ideal For Everyday se

Features an undersized crankshaft pulley that turns the belt driven accessories 25% slower, preventing horsepower losses to the air conditioner and steering pump. The kit's oversized alternator and water pump pulleys give a 25% and 17% increase over factory pulleys to keep those two accessories turning at their proper speeds. 2-groove set used without A.I.R. pump; 3-groove set used with A.I.R. pump. All kits come with 3-groove crank pulley.

1968-82 Stewart Hi-Flo Water Pumps

- **Small Blocks Can Run Up To 40° Cooler**
- **41% More Flow**

Finally a pump that will help keep your hot

Corvette cool. Stewart

water pumps use special castings with larger flow passages and super hi-flow impellers to correct inherent cooling problems. All pumps are exact factory replacements utilizing all stock hook-ups and mounts. Guaranteed for one year from date of purchase against defects in material and workmanship. Stewart big block water pumps provide superior cooling at off idle rpm's.

37114

1968-74 High Torque Starters

- Out Performs Stock Starters
- Resistant To High Heat
- Made For Hi-Performance Engines

This High Torque starter has been reengineered to produce higher torque while all other internal components have been redesigned to reduce current draw and increase battery life.

A5900	1968 w/Small Block Engine w/Man. Trans.	179.99 ea.
A5901	1965-74 w/Big Block Engine w/Man. or Auto Trans.; 1968 w/Small Block Engine w/Auto Trans.; 1969-82 w/Small Block Engine w/Man. or Auto Trans.	179.99 ea.

A5901

1968-82 Gear Reduction Starters

- Eliminates Hard Starting Problems
- Ideal For High Compression Or High-Performance Engines

- Lighter & Smaller Than Stock Starter

If starting problems are aggravating you, we have the cure - a Power Master, Hi-Torque, 4.4 to 1 Gear Reduction Starter. It's far more powerful than any stock starter plus it's lighter and smaller than the stock unit to make header clearance a thing of the past. And because the Power Master starter does not act as a heat sink it is unaffected by high header heat or high under-hood temperatures. It has a billet aluminum adapter block and mounting bolts are included for easy installation.

41571	All	149.99 ea.
-------	-----	------------

41381

Thermo-Tec Starter Motor Heat Shield

- Insulates Starter From Heat
- Prolongs Starter Life

Shield attaches with straps. Ideal protection from exhaust manifolds or headers.

88-0176-1	49.99 kit
-----------	-----------

1968-82 Starter Heat Shield

- Insulates Starter From Heat
- Prolongs Starter Life

Designed with a layer of high temperature heat-insulating material sandwiched between two sheets of aluminum, creating a temperature barrier which protects the starter from exhaust manifold or header heat. Note: Use only with Delco style starter.

1968-82 Be Cool® Direct Fit Aluminum Radiators

- Engine Runs Cooler 20°-40°
- 40% Lighter Than Stock
- Vacuum Braze Assembled (Epoxy Free)

High horsepower engines generate a lot of heat and require extra cooling. Whether you performance drive your Corvette or cruise it, keep its coolant temp in check with this direct fit, high capacity aluminum radiator. It features a cast aluminum filler neck, extra strong tanks and advanced core technology. Delivering lighter, more durable and cooler operations over brass and steel radiators.

1968-72 Be Cool® Super Heavy-Duty Aluminum Radiators

- Engine Runs 20° - 40° Cooler
- 40% Lighter Than Stock
- Vacuum Braze Assembled (Epoxy Free)
- Uses Small Block Radiator Support

These radiators are for mildly modified big blocks or small blocks up to 500 cu. in. and 700 horsepower that are air conditioning equipped. It will keep your engine 20° - 40° cooler than stock. A stock, small block aluminum radiator core support must be used and stock small block shrouds will require modifications. Big block upper and lower radiator hoses must be used (Eckler's p.n.'s A3597 & A3557 respectively). Be Cool® Radiators feature cast aluminum filler necks, extra strong tanks and advanced core technology.

POWER COOLING

1968-82 Be Cool® Radiator Module Systems

- The Ultimate Cooling System
- Module System Is Capable Of Cooling 500 - 600 Cu. In. Or 700 - 1000 H.P.
- Bolt-In Installation

When you combine a Be Cool®, Dual-Core, Direct-Fit Aluminum Radiator with a high-torque, European style electric fan(s) you can cool just about anything you can put in a Corvette. These bolt-in units also include the electric fan mounting brackets, electric fan wiring harness, a coolant recovery tank and a billet Be Cool® radiator cap (used on the radiator for 42138, 42139 and 42140 and used on the expansion tank for 42137). The 42138 and 42139 are supplied with dual 11" electric fans and the 42137 and 42140 are supplied with a single 16" fan.

1968-82 Be Cool® Fan Cooling Kits

- Direct Bolt-On Applications For Be Cool® Radiators
- Replaces Stock Fan
- Aids In Cooling/Harness Turns On At 195°, Off At 175°
- 16", 13" Or Dual 11" Fan Set-Ups Available

Increase the cooling power of your system with a Be Cool® Fan Cooling Kit. Fits Be Cool Radiators: part numbers 32163, 32493, 32765 and 32766 shown on page 138. You can select a 16" straight blade, hi-torque, or 13" curved blade puller fan depending on your needs for the 1968-82 Be Cool® Radiators and use dual fan for 1969-82 Be Cool® Radiators, (page 138).

For single fan application order the 42050 Bracket Kit and 42053 Harness. For the dual fan application order the 42050, 42053 and the 42626 Bracket Kit and the 42053 and 42627 Relay Harness.

42051	16" Fan (Puller)	229.99 ea.

1968-82 Dual Electric Fan System

The Flex-A-Lite Dual Electric Fan System is the most powerful system on the market today. It pulls 2200 CFM and

totally eliminates the need for the stock fan and shroud. The dual 12" fans fit compactly in a shroud area and measures only 2-1/4" in depth, 27" across and 15-1/2" high. With these measurements, it will fit almost all 68-82 Corvettes (please measure your radiator core before ordering) and can be mounted either on the radiator core support with supplied brackets or through the radiator using mounting straps. This system allows you the flexibility of operating both fans thermostatically or one on continuous run and one thermostatically. All mounting hardware and instructions are supplied.

28631	Fan	439.99 kit
28630	Fan Control Harness	49.99 kit

1968-82 Engraved Fan Shroud Plates

Fits on top of your fan shroud or radiator with double back tape or trim screws. Measuring 24" x 1-1/2", the plate has the word "Corvette" precision engraved. Available in natural aluminum finish or black.

Minor trimming may be necessary in some applications.

Note: Letters are "natural" finish, not black as pictured.

A5370	Natural Finish w/Natural Letters	15.99 ea.
31541	Black Finish w/Natural Letters	16.99 ea.

1971-82 Cooling Fan Clutch Eliminator

- Removes Fan Clutch From System
- Delivers More Cooling Than Fan Clutch
- Places Belts In Proper Locations

53669

74.99 ea.

NOTE: Due to being a direct drive, you may experience more fan noise.

1968-80 Air Conditioning Compressor Mounting Kit

- Stock Kit For 1968-76 Corvettes Or To Add Original Brackets For Air Conditioning
- Used As An Upgrade For 1977-80

If you have suffered thru having to replace one or more R4 air compressors, you may be looking for a solution. Our Compressor Conversion Kit lets you install super reliable and less costly A6 compressor. Our kit includes all the necessary brackets, all you have to do is buy the A6 compressor and have your local air conditioning specialist install new hoses. The compressor, a non-super heat switch model, will also replace stock compressors on 1968-77 Corvettes.

1968-82 **NEW** Wilwood Aluminum Caliper Set

- **Lighter Than OE Calipers**
- **56% Less Unsprung Weight**
- **Square Cut O-Ring Sealing System**
- **Stainless Steel Braided Brake Hoses Included**
- **Stainless Steel Pistons**
- **Excepts All D8 Style Brake Pads**
- **Bolts Directly to Stock Mounting Brackets**

These calipers are a direct bolt on replacement for 1968-82 Corvettes that utilize all the modern engineering benefits that have made Wilwood calipers the industry standard for 30 years. The calipers start with a forged aluminum body that greatly increases rigidity while reducing the weight compared to a cast iron replacement caliper. The factory cast iron caliper weighs in a 13.2 lbs, and this one is 5.8 lbs. That's a 56% reduction in unsprung weight. They are fitted with stainless steel pistons and sealed by square cut O-rings retained in the bore by a groove in the caliper body. This design offers years of service with no maintenance. The caliper also incorporates wilwoods stainless steel bridge wear plates. Wear plates keep the steel backing plate of the pad from gouging the caliper bridge. The wear plates have a spring loaded bow shape to dampen pad vibration and harmonics that contribute to pad noise. The calipers are designed to bolt directly on to the factory mounts using factory pads, rotors, hubs and master cylinder with no modifications. The piston sizes mirror the factory caliper it is replacing, therefore pedal travel and master cylinder function will be unchanged. The factory D8 style pad shape is used in our new calipers making replacement pads widely available. Ecklers offers many pad designs to choose from.

1968-82 Front Disc **NEW** Brake Conversion Kit

- **Gives Your Classic Corvette Today's Z06 Braking System**
- **Requires 17" Wheels**

Eckler's is proud to offer disc brake upgrades for 1968-82 Corvettes. Kit includes: 13" Drilled rotors that are made in the U.S.A. and Corvette C6 Z06 aluminum six piston calipers. Kit bolts directly into place without any drilling, cutting or modifying. This kit will improve braking power, reduce brake fade and have higher durability than factory brakes. Included in the kit are: calipers, performance pads, rotors, rotor hats, stainless steel brake lines, clear instructions and all mounting hardware necessary.

1968-82 Wilwood Stainless Steel Braided Brake Hose Set

NEW

These specially design braided stainless steel brake hoses are to be used only with the Wilwood aluminum caliper sets P/N 54517 or 54518. These WILL NOT fit factory style calipers

54519 199.99 set

1968-82 Braided Brake Hose Sets

- Increases Pedal Firmness
- Corrosion Resistant Stainless Steel
- Conforms To Federal Motor Vehicle Safety Standards No. 106

Every time you apply the brakes, the factory rubber hoses expand under hydraulic pressure. Even a small amount of expansion is enough to make the pedal seem soft. Braided stainless brake hoses give you more confidence by delivering a faster response time and a firmer pedal.

Dual Chamber Brake Master Cylinder Pressure Bleeder

- Bleeds Brakes Like The Professionals
- Pressurized Brake Fluid Forces Trapped Air From Brake System
- Fits All Dual Chamber Automobile Metal Master Cylinders

Finally an affordable and easy-to-use brake pressure bleeder for the do-it-yourself mechanic is now available. This tool uses air pressure to force brake fluid through the system during the brake bleeding process. Pressurized fluid forces all the trapped air in the hydraulic system out, providing the most efficient way to have a firm brake pedal. This kit will work on any dual chamber, metal master cylinder and eliminates the need for a second person during the bleeding process.

1968-82 Bilstein Autocross Shock Absorbers

- Dramatically Improves Handling

For autocrossers and lapping drivers this is "the" shock to buy! It will dramatically improve handling and specifically improve control on off throttle oversteer, rapid cornering direction change and will definitely provide overall chassis control. These hi-pressure gas shocks "will" make a difference in your lap times! Can not ship by air.

OUR BEST SELLER - NUMBER ONE!

1968-82 KYB Gas Shock Absorbers

- High Pressure
- Great Price
- Excellent Replacement Shock

KYB high pressure gas shocks are excellent performance replacements for both Bilstein and non-Bilstein equipped 1968-82 Corvettes. In terms of performance, KYB's are "guaranteed" not to fade! In fact, regardless of how much or how hard the shock is worked, the KYB shock still provides 100% shock absorbing efficiency - now and forever. The KYB mono-tube shock is backed by a limited lifetime warranty. KYB is an excellent selection for Corvette owners who demand life-long service out of a performance shock. Can not ship by air.

BILSTEIN

1968-82 Edelbrock Performer IAS Shock Absorbers

- Unique Inertia Active System
- Improves Handling Yet Delivers A Smooth Ride

Edelbrock's all-new Performer IAS shock absorbers dramatically reduce chassis roll around turns, yet deliver a smooth, comfortable ride. No other shock can offer this kind of performance because no other shock has their patented Inertia Active System. This unique system is soft on rough roads and firm on smooth roads to keep the tires firmly planted on the ground and the chassis stable. The result is a vehicle that's safer and more fun to drive. With Edelbrock, you get the best of both worlds...superior handling and comfort!

Cannot ship by air.

1968-82 Koni Gas Shock Absorbers

- Manually Adjustable
- Settings From Firm To Soft Ride

Koni's low pressure gas charged shock absorbers provide 5 settings that range from luxury car comfort to sports car firmness. At the softest setting, the Koni's will be slightly stiffer than our Delco shocks and in the most firm position, they will be right in line with our Bilstein shocks. Koni shocks are adjusted by removing from the car on 1968-82 models and rotating the shock to the next setting. Can not ship by air.

1968-82 Composite Replacement Rear Monospring

Eliminate your Corvette's choppy ride, restore lost ride height and eliminate unearthly squeaks and moans, all by replacing your worn out steel leaf spring with a composite monospring. A composite monospring will give you a smooth, comfortable ride and will do so without sacrificing performance. Another benefit of the monospring is it never wears out. Weighing only 8 lbs., the composite monospring also reduces unwanted, unsprung weight while improving handling performance at the same time. Direct replacement for 1968-82 Corvettes and is available in four spring rates —

330 lb. Composite Monospring Usage

Our most popular spring. Can be used on any 1968-82 small block car. Not as harsh as a Gymkhana 7-leaf stock steel spring. Rides and handles great. Ideal when combined with Grand Touring front coil springs.

35265

389.99 ea.

A7047

360 lb. Composite Monospring Usage

The Street/Slalom spring. Recommended for all big block cars and those wanting greatly enhanced handling. This high performance spring gives better ride than a 7-leaf with far superior handling. Ideal spring to use with Gymkhana (F-41) front coils (550 lbs./inch) or the Front Transverse Leaf Spring Kit.

A7047

389.99 ea.

39840

420 lb. Composite Monospring Usage

Increased stiffness. Racers and drag racing. Direct substitute for Daytona Steel spring (400 lbs./inch).

39840

389.99 ea.

1968-82 Tap & Die Set Tool

Includes six hard to find rethreader taps 7/16"-20 & 9/16"-12 SAE and dies 3/4"-20, 5/8"-18, 1/2"-20 & 7/16"-20 most needed in Corvette suspension work.

1968-82 Dual Mount Rear Composite Monospring Kits

Dual Mount Monospring Kit can be set for a soft ride or high performance handling by simply changing the mounting block adjustment points. You can also adjust the ride height up or down 1" using the adjustable spring bolts. This kit will work with any front spring setup and rate (from stock to 860 lbs./in.) and is ideally matched to front monospring kits. Installation is all bolt-on with the exception of 4 holes which must be drilled into differential crossmember for bolting on the kit's two mounting brackets for 68-79 Corvettes. The kit includes a specially made rear monospring, adjustable long spring bolts with polyurethane cushions, mounting brackets, blocks and plates and all necessary hardware and installation instructions.

1968-82 Complete Front Monospring System

This kit makes your 1968-82

Corvette ride and handle like a 1996. How? It replaces the conventional front coil springs with a composite mono leaf spring, allowing you to realize the technological advances of the transverse design that comes stock on the 1984-96 Corvettes. You'll feel an amazing improvement in both ride comfort and handling! The kit installs in approximately 5 hours and requires no modifications or welding. Included are pre-assembled, powder coated control arms, with smooth riding polyurethane bushings, new heavy duty ball joints, composite spring and hardware. In addition, this kit offers ride height adjustment and adjustable spring rate. With its lighter weight construction, unsprung weight is reduced, allowing the suspension to react quicker to the road. This package comes with a 5 year warranty.

-------	---	------------

1968-82 Max Performance Suspension Package

To get the maximum possible handling in a completely bolt-on package this is "the" kit to buy! You get the benefit of fully adjustable front and rear spring systems to fine tune spring rates plus you can change ride heights in just minutes. You also get smart struts® for maximum rear camber control ideally balanced sway bars (1 1/8" front/ 3/4" rear) to complement the Bilstein digressively valved gas shocks. In addition to the MIG welded upper control arms you get a complete polyurethane front end rebuild kit plus the following parts: (Note: Cannot ship by air.)

- Heavy Duty Upper A-Arms
- Stainless Steel Trailing Arm Shim Kit
- Polyurethane Trailing Arm Bushings
- Crossmember Reinforcement Kit
- Polyurethane Differential Bushing Kit

1968-82 Advanced Street & Slalom Suspension System

- Ideal For Serious Street Performance & Occasional Autocrossing
- A Marked Improvement Over Factory F-41 Performance Suspension

This system, using the composite rear monospring will provide not only a better ride but much better reaction than the stock steel spring. The 550 lb/in. front powder coated coil springs are a big step above stock springs. When you combine this with the modern technology of Bilstein Sport Gas Shocks, beefier sway bars and polyurethane suspension bushings you get a complete suspension make-over at a very economical price. This kit cannot be shipped by air.

Kit Includes:

- Front Coil Springs & Sport Rear Composite Monospring With Mounting Hardware
- Front and Rear Bilstein Sport Gas Shocks
- Polyurethane Shock Mount Grommets
- Addco 1.125" Front And .750" Rear Sway Bars
- Polyurethane, Adjustable Smart Struts

1968-82 Smart Struts And Performance Camber Rod Kit

- Increases Rear Wheel Traction
- Reduces Uneven Tire Wear

Give your Corvette's rear suspension, the competitive edge. Smart Struts increased adjustability and rigidity improves suspension geometry, eliminating camber change during suspension travel. This keeps more of the tire's contact patch on the ground at all times. The result is improved traction and stability during hard cornering, as well as more off the line traction. Its heavy duty construction will also maintain alignment settings better than the factory components under aggressive driving maneuvers.

Kit comes complete with: heavy duty upper strut rod mounting bracket, custom poly-adjustable struts, all hardware and instructions

1968-82 Steeroids Rack & Pinion Conversion Kits

- Completely Bolt-On Installation
- 30 Year Leap Forward In Steering Technology

The Steeroids system completely replaces the original steering system with an up-to-date rack and pinion. The difference between even a brand new stock C3 system and a rack and pinion system is remarkable. And best of all the conversion is completely bolt-on and requires no permanent modification to your Corvette. The kit includes a remanufactured GM rack and pinion, all necessary mounting hardware, fasteners, adapters and hoses. The only item not included is the power steering pump which we assume you have. All steel components in the kit are black powder coated and the aluminum components are anodized.

1968-82 Steering Box Rebuild Kits

- Allows You To Keep Original Casting
- Provides "Quick Design" 16:1 Ratio For Improved Response
- No Recycling Old Components

For the Corvette enthusiast who would prefer to keep the original GM casting, we offer a parts kit to rebuild your own box. Most rebuild boxes on the market only have new bearings, races and seals installed. The worm and nut and sector, which are the critical parts that are needed for that new steering response, are not available NEW so the old parts are recycled into rebuilt boxes. This kit enables you to remanufacture your own steering box with ALL NEW components including: Worm and Nut 16:1 Ratio Sector Shaft, Bushing Kit and Bearing & Seal Kit. Note: Remanufacturing your own steering box requires some technical expertise and some machining may be necessary (i.e. bushings).

1968-82 Non Power Steering Rack & Pinion Upgrade Conversion Kit

- Easily Converts Your Corvette To Rack & Pinion Steering
- Complete Instructions Included
- Requires Drilling Holes In Motor Mount Brace

Convert your non-power steering Corvette to modern steering technology. The rack & pinion system is far superior to the old Corvette's leaky steering valve and piston system. Drilling a hole in the motor mount support is required, but everything else is bolt-on using existing holes. More precise steering without leaking fluid is the way to go.

1968-82 Upgrade Power Steering Gear Box

- Replaces Steering Box With Or Without Power Steering
- Removes Leaking Valves, Hoses & Cylinder
- Upgrade For Non-Power
- 12.7:1 Ratio
- Three Turns Lock To Lock

This new power steering gear box eliminates the leaky cylinder and valve on factory power steering Corvettes or add power steering to non-power steering option Corvettes. To change over a Corvette with original power steering, remove the cylinder and brackets, hoses and original gear box. Install new box and connect new hose kit P/N 54070 to box and original pump. For non-power steering Corvettes, a pump and brackets must be installed. On Corvettes equipped with original power steering, a non-power steering relay rod P/N 53325 must be installed. Modifications to the steering shaft is required and a new rag joint P/N 54069 must be used.

1968-82 Automatic Transmission Cooler

• Prevents Overheating

• Prolongs Transmission's Life

Did you know 9 out of 10 automatic transmission failures are caused by overheated transmission fluid? If you use your Corvette for towing, drag racing or auto crossing, you need the protection of a Flex-a-lite transmission oil cooler. Step by step instructions are included as well as installation hardware.

Bearing Packer Tool

Our universal Bearing Packer quickly and easily packs any bearing with new grease. You simply place the bearing between cones, tighten and apply grease thru the fitting. Old grease is forced out while new grease is evenly injected into the bearing. A grease gun is needed to use this tool.

1968-79 Eaton® Posi-Traction Differential Carbon Fiber Clutch Pack

- Ideal Upgrade For High Horsepower Cars
- Carbon Fiber Clutches Are Virtually Indestructible & Thrive On Repeated Harsh Engagements
- Carbon Fiber Also Eliminates Annoying Clutch Chatter During Turns

To eliminate posi-traction clutch slippage and to assure smooth, quiet operation, Eaton's Carbon Fiber Clutch Pack should be your first choice for a stock rebuild or hi-performance upgrade. In addition to more grip, you'll also get greater clutch life with Eaton's carbon fiber technology.

1968-82 Rebuilt Differentials

- Professionally Rebuilt
- Gears Set To Factory Specs
- 1 Year Unlimited Warranty

Each unit is equipped with new Timken bearings, races and seals. In addition, you receive a new positraction clutch pack. As specified below the differentials are rebuilt with original GM quality select ring and pinion or all new gear sets. A \$450 core deposit will be added to the price of the differential. The core deposit will be refunded upon receipt and inspection of a rebuildable core. A deduction on the core will apply for cracked cases, egg-shaped pinion shaft holes, broken ring gear bolts and broken gears. Note: Cores must be returned within three weeks of invoice date in order to qualify for any refund. Sorry, no exceptions. Specify year and Flange size when ordering.

1968-82 Remanufactured Side Yokes

- Eliminate Unnecessary Repair Expenses
- Lifetime Warranty Against Wear Or Failure

32401

The stock side yoke ends wear down depositing damaging metal into the rear end. Worn yokes cause rear wheel camber problems which causes tire wear. Our retrofitted side yokes are made from original GM yokes. Once reconditioned, precision machined 0-1 tool steel button inserts are installed in the ends. The button insert itself is hardened and press fit into the yoke. Core charge added.

1968-81 Ram Premium Clutch Kits

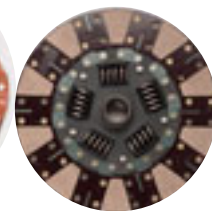

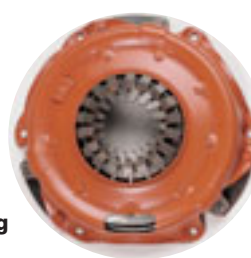

- Upgrade Over Original Equipment
- Pressure Plate, Disc & Throwout Bearing

Clutch Kits are matched pressure plate, clutch disc and throwout bearing sets that have been designed for engines that have been mechanically upgraded over stock. These sets are direct replacements for stock assemblies and require no additional effort in driving. The additional torque capacity of these clutches is the result of a much improved clutch disc friction material that can withstand the added power output and aggressive driving style of today's mildly modified street combinations. Each set includes a pilot tool to make alignment of the disc a snap.

1968-81 Centerforce II Clutch Sets

- Reduces Pedal Pressure
- Greater Holding Capacity

The Dual Friction System Kit includes the clutch plate and disc, and generates up to 90% more holding capacity over stock systems. Designed for use in engines producing high horsepower and torque output. The Centerforce II System, comprised of a clutch plate and disc (purchased separately) generates up to 60% greater holding capacity over stock systems and is designed for mildly modified vehicles used for street and strip driving.

1968-69 P215/70R15 Red Line Radial Tire

• Reproduction Of Original

Radial tires weren't an option when your classic Corvette was new, but that was then. Now you can get the modern advantages of radial tires while keeping the nostalgic look by installing vintage radial ply tires from Eckler's. Having these tires is important if you plan to drive your restored Corvette regularly. Out on the road, you'll appreciate the enhanced radial tire driving experience compared to the original bias ply tires. Radial tires provide greater safety, higher gas mileage, longer tread life and better handling. So for the look of yesterday combined with greatly improved ride qualities, get your classic Corvette a set of these vintage radial tires from Eckler's.

1953-10 Corvette Black Book

As the Corvette enters its second half-century and sixth generation, the Corvette Black Book is there to cover the journey. This pocket-sized marvel has thousands of facts including options and option codes, exterior and interior colors and codes, production quantities, serial numbers for body, engine and component parts and details that make each model unique. The beauty of the Corvette Black Book, like the car itself, lies in its constant evolution. This latest edition has 2010 data, including Z06, Grand Sport & ZR1 plus 2009 production quantities and other updates throughout. Soft cover, 160 pages, 115 black & white photos, 4-3/8" x 9-1/8".

Eckler's "How To Videos & DVDs"

Let experts walk you step-by-step to a perfect repair or installation in our "How To DVDs."

Volume I on fiberglass covers repairing stress cracks, spraying gelcoat and preparing new parts for paint.

Volume II covers the repair of holes and fractures (including smc panels) plus the demonstration of quarter panel replacement on a 1968-82 Corvette.

Interior trim covers the installation of 1968-75 convertible tops, and 1977 door panels and carpet but is a guide for installation of 1958-77 door panels, seat covers and carpeting. Each Video & DVD is approximately 60 minutes.

1968-82 Body Repair Manuals

No matter whether you want to restore your Corvette to original specs or repair collision damage, these guides explain how-to-do-it in non-technical language every backyard hobbyist can understand and apply. In addition, almost every page has two photos or illustrations that give you quick visuals on just how the repair is performed. It also shows you how to do professional repairs without having to purchase specialized tools.

259.99 set

Battery Tender

- Safe, Reliable, Trouble Free Battery Care
- Developed To Maintain Batteries Not In Constant Use Or Storage

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

88-0160-1

59.99 ea.

Battery Tender Waterproof 800 Charger

- Charges Battery & Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is totally epoxy encapsulated so it will perform even while submersed under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

88-0161-1

44.99 ea.

Schumacher Battery Companion

- 1.5 amp Charger And Maintainer
- Automatically Switches From Full Charge To Float-Mode Monitoring
- LEDs Indicate: Charging, Charged And Trouble
- Reverse Polarity

Unique automatic battery charger maintains both 6 and 12 volt batteries keeping them at full charge using float-mode monitoring. Perfect for charging small batteries. Great for maintaining small and large batteries kept in storage-motorcycles, classic cars, RVs, boats. Quick-disconnect Harness, snaps either connector into place in seconds.

88-0159-2

44.99 ea.

Priority Start

- Guarantees Battery Power For Starting
- Simple Installation
- 3 Easy Connections

Detects excess voltage drain – due to lights left on, door ajar, radio on, even short circuits – it automatically disconnects the load. When the key is turned on, it automatically reconnects the battery and your car starts. Priority Start is easy to install and is backed by a 3-year warranty. Priority Start fits both side post and top post batteries, hardware included.

88-0104-1

69.99 ea.

Schumacher Mity Mite On Board Battery Charger

- For Cars Not Driven Daily Or During Winter Storage
- Compact, 1.5 Amp, 12 Volt, Automatic

On board charger keeps your battery strong during times of storage or non-use. When it gets a voltage drop of one, it activate and charges your battery to full strength. Shuts down automatically to prevent overcharging. On/Off charging indicator lights tells you what phase the battery charger is on. Two-year warranty.

Dual Master Cylinder Brake Pressure Bleeder

- Bleeds Brakes Like The Professionals
- Pressurized Brake Fluid Forces Trapped Air From The Brake System
- Fits All Dual Chamber Master Cylinders

Finally an affordable and easy-to-use brake pressure bleeder for the do-it-yourself mechanic is now available. This tool uses air pressure to force brake fluid through the system during the brake bleeding process. Pressurized fluid forces all the trapped air in the hydraulic system out, providing the most efficient way to have a firm brake pedal. **This kit will work on any dual master cylinder and eliminates the need for a second person during the bleeding process.**

88-0309-1 74.99 ea.

Eradicate Paint Touch-Up "Blobs"

- Smoothes & Levels Touch-Up Paint
- Simple 2-Step Process

Langka's unique formula safely removes excess touch-up paint. After cleaning chipped or scratched areas, apply touch-up paint and allow it to dry. When paint is dry, wrap a clean tightly woven smooth cotton cloth around the included buffing card and apply a generous amount of Blob Eliminator to the paint blob. Firmly rub over surface with the cloth covered card to penetrate and smooth out those unsightly paint globules.

88-0259-1 2 Fluid oz.

22.99 ea.

POR-15® Gas Tank Repair Kit

- Ideal For Saving Metal Tanks With Minor Leaks
- Easy To Use

The POR-15® kit out performs ordinary kits because it is a complete kit that goes to the root of leaks and bonds to the metal whereas other products simply cover the leak. The kit includes TankClean™ to remove gum, sludge and varnish, MetalReady™ to remove rust and prepare the tank for sealer, U.S. standard Tank Sealer™ to permanently seal the tank and Fuel Preservative And Stabilizer to keep fuel fresh and fuel systems trouble-free. The tank must be removed from the car to perform the repair.

38204 3.50 ea.

Z2 Pro Show Car Polish - (Clear Coat Paint)

Molecular chemistry provides " wettest-looking, " distortion-free, ultra-deep look to your Corvette's paint. Easy to use polish leaves no residue.

***34412** 8 oz. 17.99 ea.

Z5 Swirl Mark Polish

Removes swirl mark and fine scratches from clear coated surfaces. Safe, non-abrasive formula.

***38202** 8 oz. 19.99 ea.

Z6 Ultra Clean Gloss Enhancer Spray

For fast cleaning of dust, water spots and light soil between washes. Anti-static formula reduces dust and dirt pick-up.

34413 16 oz. 11.99 ea.

Z-PC Fusion Dual Action Paint Cleaner & Swirl Remover

Safely removes minor scratches, swirls, oxidation, wax build-up & other blemishes. Can be used in sun or shade on cool surfaces.

48425 8 Oz Bottle 15.99 ea.

Z-CS Clear Seal

Advanced total synthetic polymer protectant. No buffing or wiping required, Just apply and let dry.

50761 6 Oz Bottle 32.99 ea.

Z-AIO Polish & Protectant All-In-One Cleaner

Restores dull paint and minor oxidation, leaving glossy and strong protective layer.

50762 16 Oz Bottle 29.99 ea.

***Cannot Ship
By Air**

Z7 Show Car Wash

Contains no detergent, alkalines or acids. Does not deteriorate polish finish. **34414** 16 oz. Concentrate 10.99 ea.

Z9 Leather Soft Spray Cleaner

Perfect for all leather products and vinyls too. Blend of emulsifiers, mink-oil and lanolin to safely clean as well as enhance leather scent.

34416 8 oz. 110.99 ea.

Z10 Leather In A Bottle Treatment/Conditioner

Contains a perfectly balanced, solvent-free blend of mink oil and other natural nutritives which penetrate, soften and preserve the leather. Non-oily, non-sticky.

34415 8 oz. 12.99 ea.

Z12 Clean-View Glass Polish

Finally, a glass cleaner that works. Removes acid-rain, water spots and annoying interior glass film. Can also be used on chrome surfaces.

***34474** 8 oz. 14.99 ea.

Z16 Perfect Tire Gloss (Rubber/Trim)Protectant

Non-oily rubber protectant that holds up thru multiple washings. Slightly glossy finish.

38203 16 oz. 14.99 ea.

ZFX™ Flash Cure Accelerator Additive

Polish enhancement additive for all Zaino show car polishes. Accelerates cure time of polish within minutes. Vastly improves paint appearance and increases polish durability.

42705 22.99 ea.

Z8 Grand Finale Spray Seal

For special occasion use only. Zaino's ultimate for gloss, shine, depth, reflectivity and durability is ideal combination with Zaino car polishes (use Z6 for day-to-day detailing). Spray on a cool, dry surface and buff to a beautiful streak-free finish.

48116 16 Oz Bottle 22.99 ea.

Zaino Z-18 Clay Bar

The small clay bars remove imbedded contaminants from the paint which cannot be removed using conventional methods. Clay Bar is safe for all paint finishes.

88-0340-1 21.99 ea.

Zaino Z-7 Car Wash/Clay Bar Lubricant

Use as a lubricant for use with Z-18 Clay Bar.

88-0339-1 10.99 ea.

Pace Car Collector Coin Set

- 11 Coins
- All In Full Pace Car Paint Colors
- Includes Deluxe Case

Since 2008 marks the 30th

Anniversary of Corvette Pace Cars at Indy, we're honoring it with this official set. We've taken a stunning full-color photo of every "Indy 500" Corvette Pace Car from 1978 to today — all eleven of them! — and produced it on the face of an Uncirculated Indiana State Quarter! This magnificent 11-coin collection represents four generations of Corvettes, including convertibles and Z06's, all decked out in their original, pace car paint jobs, and with official pace car badges! Each 11-coin set comes in a deluxe case designed to protect and display your collection, with Certificate of Authenticity verifying its legal tender status and official "Indy 500" authorization.

54956 34.99 ea.

Aluminum Wheel Buff

- Use With Busch Super Shine

3" diameter buff includes arbor for 1/4" drill.

35906

25.99 ea.

HD Aluminum Wash & Buff Kit

Restores a brilliant shine to surfaces that are extremely difficult to polish by hand. Works well on aluminum wheels, engine accessories, plus most brass and stainless accessories. A drill is required. Kit contains 8 oz. HD wash, 1/2 lb. HD buffing compound, 1/2 lb. high luster buffing compound, 2 buffs and drill arbor.

35905

36.99 kit

Aluminum Wheel Wax & Sealant

Adds a mirror-like brilliance to your car's aluminum wheels by removing swirl marks and hazy residue. To improve corrosion resistance, especially in adverse winter conditions, just apply sealant but do not wipe off. Cannot ship by air.

26240 16 oz.

19.99 ea.

Aluminum Polish - "Super Shine"

Restores brilliance to dull uncoated aluminum wheels. Can be applied by hand or power buffed. Black residue wipes off easily and washes off hands with common soap and water. Provides a long lasting brilliant shine with superior resistance to dulling. Cannot ship by air.

35904 16 oz

17.99 ea.

Clear Coat Remover

Removes dull, peeled and streaked polyester or acrylic clear coat from aluminum and chrome surfaces. Easy to use - brush on and hose off. Bare aluminum can then be polished or painted. Cannot ship by air.

A4933 16 oz.

22.99 ea.

55213

31.99 pr.

1968-82 High Performance Brake Rotors

NEW

- Cryo-Slotted/Drilled
- Bolt-On Installation

Cryogenic tempering is a one-time stress relief process that involves both cold and heat treatment of the brake rotor. This stress-relief process permanently improves the performance and service life of all metals. Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping.

Wheel Lug Nut Cleaning/Polishing Brush

- Makes Cleaning Recessed Lug Nut Wheels Quick & Easy
- Convenient T-Handle Design (Also Notched To Hang On Wash Bucket)
- Cleans Wheel Cavities From 1-3/8 to 2" With Lug Nuts From 3/4" To 13/16"
- Includes (1) Extra Foam Cleaning Head

NEW

Now you can throw away the make-shift sticks and rags you've used for years to clean recessed lug nut wheels. This tool is a "must have" for every auto enthusiast who wants to detail their wheels perfectly and with the least amount of time and effort. Simply add a little soap and water to the brush, push it over the lug, twist it with the easy-to-use T-handle and your car's lug nuts and wheel cavities will look like new in seconds. Order one for you and one for your buddy today!

Interpreter Service

Interpreter Service available for non-English
speaking customers, call **1-321-269-9651**
and ask for interpreter assistance.

We Accept Credit and Debit Cards, Checks, Money Orders and C.O.D.

Eckler's accepts first party, preprinted checks
from U.S. Banks with your mail order. **C.O.D.**
method of payment applies only to shipments
within the Continental U.S. Eckler's reserves the
right to request a deposit on large orders.
\$10.99 C.O.D. fee will be applied.

Return Checks Policy

A \$25.00 returned check charge
will be assessed for all checks
returned for insufficient funds.

Eckler's Gift Certificates

Let them make their
own choice with an Eckler's
gift certificate available in any denomination.

Limited Warranty

Eckler's will not be responsible for any damage
or loss caused by delays, failures or other con-
sequential damage, nor for labor, transportation
or any other charges incurred in the replace-
ment or repair of a defective item. Eckler's
accepts no responsibility for any consequences
resulting from installation of any parts.

Returns

To be eligible for return, the product must be
in like-new condition, in original packaging and
accompanied by a copy of the invoice. Special
order parts are non-returnable.

Product must be received within 30 days of the
date of the invoice to be eligible for a full
refund. Products received within 31 to 60 days
are subject to a 25% restocking charge. No
returns allowed beyond 60 days of invoice date.
All returns must be sent prepaid. It is suggest-
ed to insure the returned item for its full value
to protect against loss. Allow up to 3 weeks
from the date of shipment for processing
refunds, credits and exchanges.

Package Protection Plan Rates

Eckler's allows total peace of mind by eliminat-
ing any hassle or risk in the event of loss or
damage of parts during shipment. If a problem
arises, call our Customer Service
representatives for a quick resolution.

Visit The Eckler's Showroom!

Located on U.S.1, between Routes 50 and 405

Showroom Hours:

Mon - Fri: 8:00 am - 5:00 pm (EST)

Saturday: 9:00 am - 1:00 pm (EST)

We Will Be Closed On These Days:

Memorial Day: Monday, May 31.

July Fourth: Monday July 5.

Labor Day: Monday, September 6.

Thanksgiving: Thursday, November 25,

Friday November 26.

Christmas: Friday-Saturday, December 25, 26.

New Years Day: Saturday, January 1, 2011

Same Day Processing Only \$3.95

Eckler's standard U.S.

order processing time is 24 hours.

If you need your order processed same day, call
us Monday thru Friday before 1:00 p.m. (EST)
and request same day processing. For just \$3.95
we'll provide special processing of all in-stock
parts through the warehouse same day.

Express delivery is available, see Express
Shipping requirements below or call our Sales
Representative for rates.

Need It Fast? Use EXPRESS SHIPPING!

Utilize Express Shipping, U.S. only, and have
your order delivered the next business day or
day after. Express Shipping is limited to in-stock,
non-oversize items with a total order weight of
less than 20 lbs.

Add \$14.99 to Shipping and Handling Rates for
two-day delivery.

Add \$24.99 to Shipping and Handling Rates for
next day delivery.

For next day delivery of oversize parts and heavier
orders, call our Sales Representative for rates.
Orders must be received by 1:00 p.m. EST.

Shipping and Handling Rates

Rates apply to ground service shipping within
the 48 contiguous states, excluding truck
shipped parts. Rates for Alaska, Hawaii and
Puerto Rico may vary. International shipping
rates are calculated on weights and dimensions,
call for estimate.

Orders up to \$50.00	add.....	\$9.99
50.01 to 100.00	add.....	14.99
100.01 to 200.00	add.....	19.99
200.01 to 400.00	add.....	26.99
400.01 to 600.00	add.....	33.99

800.01 to 1000.00	add.....	41.99
Over 1000.00	add.....	45.99

▲ Symbol designates part has shipping surcharge
due to heavy weight or oversize dimensions. Two
symbols designates the part is a larger oversize 2 box.
Add \$9.99 to above Shipping and Handling Rates for
each symbol.

FedEx Delivery Area Surcharge - \$1.95 per package
residential /\$1.50 per package commercial addresses.
Please note: One of the two applicable FedEx sur-
charges will be added to your shipping & handling
charges for zip codes FedEx designates as less acces-
sible or to less populated areas.

Prices Subject to Change

During the length of time our catalogs circulate,
the price or availability of items sometimes
changes without notice. While every effort is
made to ensure accuracy, Eckler's is not respon-
sible for errors or omissions in this catalog.
