## 1997-04 Air Conditioning Compressor Clutch Diode With Connector

- Replaces Damaged Factory Pigtail
- Prevents Voltage Spikes That Could Cause Damage To Switches, ECM (Computers) Or Other Electronic Circuits
- Easy To Install

The engine compartment is subjected to extreme heat and contaminants. Aging and heat can cause plastic electrical connectors to crack or break. The Air Conditioning Compressor Clutch Connector Pigtail Kit is a direct replacement for a broken or damaged factory connector. For added protection, a clamping diode module is integrated into the pigtail assembly. The clamping diode is needed to prevent voltage spikes. Without it, a voltage spike could cause damage to switches, ECM or other electronic circuits. To replace the pigtail simply snip the old wire, splice the new pigtail on and you're finished.

## 1997-04 High Performance Brake Rotors

- GM'S Upgraded Rotors For All C5's
- Drilled & Slotted
- Bolt-On Installation

Cryogenic tempering is a one-time stress relief process that involves both cold and heat treatment of the brake rotor. This stress-relief process permanently improves the performance and service life of all metals. Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping.

## 1997-04 Standard To Z06 Brake Rotor Upgrade NEW

- Original For 2001-04 Z06
- Upgrade For 1997-04 Non-Z06
- Greatly Improves Your C5's Braking
- Z06 Rotors (Factory Original)
- 12-15/16"
- Bolt-On Installation

Replace your stock Z06 rotors with this GM performance rotor or upgrade your Non-Z06 Corvette. Built for performance, these rotors are thicker design less prone to warping, checking or cracking. Use with brake pads P/N 40582, these rotors and pads allow the driver to handle the demands (especially heat) of racing better than stock parts.

## 1997-04 Baer DecelaRotor™ One-Piece Brake Rotors

- Stop Better Than Stock Rotors
- Slotted & Drilled For Performance Look
- Bolt-On Installation

Baer's DecelaTRotor™ Performance Brake Rotors for Corvettes

provide better stopping than the stock rotors and the performance look of drilled, slotted and zinc plated rotors is an outstanding visual upgrade. One of the main reasons Baer rotors stop better is because where the pad rides is internally thicker than the stock rotor thereby pulling heat away from the fire path. This feature allows Baer to provide a limited lifetime warranty to the original purchaser against warpage. These rotors simply bolt-on and are the same diameter as the stock rotors.

## 1997-04 Baer EradiSpeed-Plus Two-Piece Brake Rotors

- Hi-Performance Upgrade Rotors
- Far Superior To Stock
- Two-Piece Design Is Lighter Than Original

For those who want more performance than stock and lighter weight than EradiSpeed's one-piece rotor then their two-piece rotor is the answer. Like the one-piece design the two-piece model is internally thicker where the pad rides to allow heat to be drawn away from the fire path better. It's this feature that allows Baer to offer the original purchaser a manufacturer's limited lifetime warranty against warpage. And like the one-piece unit the rotor ring is slotted, drilled and zinc plated. The aluminum hat of the two-piece design is made of billet aluminum that is anodized black. The hat is secured with stainless steel fasteners and it's the hat that allows each rotor to be almost 4 lbs. lighter for less unsprung weight and improved handling. The front rotor for the Eradi-Speed Plus is the same size as stock while the back Eradi-Speed Plus II is 14" in diameter vs. 12-1/4". Not only does the larger diameter add more stopping power it also fills up the stock spoked rear wheel for a better look. The rear rotors come with rear caliper relocating brackets and you'll find all 4 rotors an easy, bolt-on installation.

## Be Cool Antifreeze Coolant

- 300,000 Mile Or 7 Year Service Life
- Unmatched Corrosion Protection
- Pre-Mixed - No Measuring Needed
- Self Sealing Capabilities
- Protects From -24 below Zero F To 267° F
- Perfect For High Horsepower Applications Or Stored Vehicles

Now you can increase the service life of your engines coolant by replacing it with the new Be Coolant. This will work in any American or European car or truck and will mix with any antifreeze/coolant. It is preferred to be used alone to attain the long service life. 300,000 mile or 7 year service life can be expected if you drain your system and you install only this Coolant. If you purchase a Be Cool Radiator and use exclusive Be Coolant you will extend your radiator warranty two years.

## 1997-04 ACDelco Filters

- Oil & Air
- Provide Optimum Filtration For Entire Service Interval

ACDelco filters have been engineered to provide maximum filtration for your specific application. ACDelco filters take into consideration all elements of the system so you get not only proper filtration, but the correct air or fluid flow for the period of time specified in your service manual. Using ACDelco filters assures that such key performance parameters as the air/fuel ratio will be kept in perfect balance for optimum performance.

## 1997-04 Hypertech Power Programmer III

- Increases Horsepower
- Recalibrates Speedometer
- Easy To Use

Since 1997, the Corvette's computer no longer has a replaceable chip, so Hypertech developed a portable programmer allowing you to reprogram your Corvette's computer yourself. Simply plug the programmer into the computer's ALDL connector and you're ready to re-program. With a push of a button, the factory program is downloaded into the programmer where it is stored, and may be used again if needed. Then Hypertech's performance program is uploaded. The program features both optimized ignition and fuel curves for maximum horsepower at all rpm points resulting in improved driveability and performance. The Power Programmer also raises the automatic transmission's shift points and the engine's rev limiter. It will even recalibrate the speedometer for a gear ratio on automatic equipped 3:15 cars.

**Why It's Better!** Unlike other programmers, Hypertech is a multiple use programmer. Other brands can only be used once before factory reloading is required. That's why it's better for you.

- 50-State Emissions Legal
- Easy Plug & Play Installation

Now you can get the most from your LS1 or LS6 with Hypertech's Max Energy Programmer. Use every molecule of fuel both at part throttle as well as wide open throttle.

Hypertech's Max Energy Programmer allows you to set engine cooling fan on/off settings, set top-speed limiter, engine RPM "Rev" limiter and even transmission shift points and firmness. Hypertech's Corvette Max Energy Programmers also allow you to return to stock settings or change settings anytime. Have you changed your tire and wheel size or differential, if so, then you can make your speedometer corrections by using Hypertech's Max Energy Programmer. This programmer is a must for all C5 Corvette owners.

## 1997-04 ACDelco Spark Plug Wire Set

ACDelco has designed a wire to the special requirements of a Corvette. For example, the Corvette's fiberglass body requires a special design feature to reduce radio interference. Then, there's the high underhood temperatures and unique routing and ignition shielding of a Corvette. ACDelco has developed its spark plug wires around all of this plus the wires have a very specific resistance developed for the ACDelco spark plugs which your engine uses.

ThunderVolt wires are loaded with great performance features! For example they have ferrite spiral wound coated core blended of an exclusive copper/nickel alloy bonded by a conductive acrylic latex cover. This exclusive process is designed to reinforce the tensile properties of the core and to assist in holding the core resistance to 50 Ohms per foot even under racing conditions.

### 1997-10 Livewires Spark Plug Wires

- Our Best Hi-Performance Wire Set
- Fits 1997-04 LS1, LS6
- Fits 2005-2007 LS2
- Fits 2006-2010 LS7
- Fits 2008-2010 LS2

Livewires™ are absolutely feature loaded. The 8mm silicone jacketed wires are covered with a space age, heat resistant sleeving that provides protection up to 1400 degrees Fahrenheit. Each wire has a silicone jacket between the boot and sleeving to keep dirt and moisture away from the wire terminals, plus each wire is numbered for easy installation. Livewires™ have a spiral wound core to prevent annoying radio noise.

### 1997-04 Koolsox Spark Plug Wire & Boot Protectors With C5 Corvette Word

- Ideal For Protecting Wires & Boots From Header Heat
- Helps Prevent Misfiring
- Simply Slide Over Existing Wires & Boots

Koolsox™ is an impressive new double layered fiberglass sock designed to add extra protection to exposed spark plug boots and wires. The sock provides an easy visible way to detect potential burn areas before they occur. The sock absorbs the burn instead of the wire so no misfire occurs. An adjustable ring allows the unique sock to be rotated for longer life. Soft and very flexible, you'll find Koolsox™ adapts and stretches over irregular surfaces.

## 1997-04 ACDelco Spark Plugs

- OEM Plugs • Cuts Radio Noise

ACDelco has a "totally correct" spark plug for your Corvette's engine. Sure, others will work, but none will perfectly complement the ignition system. ACDelco spark plugs are designed to achieve the optimum in engine performance when used in connection with ACDelco's total ignition system. In fact, the spark plugs even use a special resistance in the plug just for your engine so that radio interference is minimized. Insist on genuine ACDelco spark plugs!

## 1997-04 V.I.P. Mini 18 Volt Ignition Box

- Allows for Richen Up Fuel Making More Horsepower
- Works With Stock Coil-On-Plug Ignition
- Simple 3-Wire Hook Up • 2 Year Warranty
- Prevents Voltage Drop • 18 Volts
- One Mini V.I.P. Per Cylinder Bank

**NEW**

The LS-1 Motor has 8 ignition coils, one for each cylinder. Performance Distributors has designed the 18 Volt Mini-V.I.P. to send 18 volts into each coil in order to improve your performance, power, and tuning abilities. Because the LS-1 has 4 coils on one bank of the motor and 4 coils on the other bank of the motor, each of which has a separate power wire (hot wire) going to the coils, two Mini-V.I.P.'s are required. Each Mini-V.I.P. wires directly into the 2 respective power wires-very simple. Because electronic ignitions like voltage, 18 volts allows you to open up your plug gaps to .075", burning your fuel more completely on each piston stroke. This "fatter" spark allows you to run a richer fuel mixture, making more horsepower. Also, the Mini-V.I.P. prevents the commonly experienced voltage drop which occurs when you turn on your accessories. When your voltage drops, the spark at your plugs deteriorates significantly. The 18 volts from the Mini-V.I.P. not only cures this, but the additional spark intensity will keep your plugs cleaner, longer. True to its name, the Mini-V.I.P. only weighs 1 lb. and measures 3"x3"x2". Because the unit is encapsulated in moisture proof silicone and tested in-house, it is bulletproof-in fact, it has a two year warranty.

## 1997-04 ACDelco LS1/LS6 Spark Plug Wires

ACDelco has designed a wire to the special requirements of a Corvette. For example, the Corvette's fiberglass body requires a special design feature to reduce radio interference. Then, there's the high underhood temperatures and unique routing and ignition shielding of a Corvette. ACDelco has developed its spark plug wires around all of this plus the wires have a very specific resistance developed for the ACDelco spark plugs which your engine uses. As a part of a "total ignition system", ACDelco spark plug wires deliver optimum performance and a custom fit.

CORSA'S Power-Pulse RSC™ cat-back systems use break-through reactive sound cancellation technology! It cancels offensive noise frequencies (cabin resonance) yet delivers the pure sound of power under acceleration and delivers a pleasing LS-1 exhaust note at idle. By eliminating the baffles, chambers and packing material found in conventional mufflers Corsa systems provide 45% more flow than the factory system. Corsa also adds the visual appeal of highly polished exhaust tips. Corsa systems are available in the Touring version and Indy system. The Touring system is music to the ears of a true performance enthusiast while the Indy system has a somewhat bolder and more aggressive sound. Both systems run without resonance at cruising speed. Limited lifetime warranty to original purchaser. Power-Pulse RSC™ Patent #59525625.

## 1997-04 B & B Tri-Flo Exhaust Systems

- Produces Solid 10-12 Horsepower Gain
- Three Tip Styles Available
- 100% T-304 Stainless Steel

B & B Fabrication's Tri-Flo Performance Exhaust for the C5 Corvette is an absolute state-of-the-art stainless steel exhaust system. Built from scratch on a test vehicle, every step in the design has been dyno tested for optimum performance with the perfect mix of sound enhancement and cosmetics. Utilizing factory mounting locations for a clean and simple installation, the Tri-Flo systems are all T-304 stainless steel and come fully polished. The sound; whether it's the original touring (Route 66) or new sport system (PRT), is pure enjoyment, without being overbearing. Both emit a crisp, throaty tone with no interior resonance with the PRT System sound being more aggressive. Cosmetics are greatly improved as the fully-polished system exit the center valance opening with quad 4.5" wide and rolled-edge tips. Installation of the Tri-Flo after-cat exhaust system on the C5 is no more difficult than removing the factory exhaust. In fact, the Tri-Flo system has a slip joint in the axle hoop making installation simple and allows for perfect adjustment. No modifications are necessary and installation can be completed in about an hour using regular hand tools. No cutting or welding is necessary.

## 1997-04 Borla "Stinger" Exhaust Systems

- 2 X The Flow Of Popular Competitive Systems
- 9-12 Horsepower Increase
- "Total" V-8 Sound Without Resonance
- Bolt-On Installation

Borla's all new "Stinger" cat-back exhaust system doesn't look like, sound like, flow like or perform like any C5 or Z06 exhaust system ever built. It's lighter than a titanium system, produces a solid 9-12 horsepower, is made of polished 304 stainless steel, has large, bold 4" angle-cut rolled tips and perhaps, best of all, has a sound that proclaims performance like no other, aggressive but totally in control. In fact, John Lingenfelter, considered by many to be one of the top C5 tuners in the world said, "the new Borla system has no competition. It is that much better than anything we have ever seen."

## 1997-04 Borla Exhaust X-Pipe

- Produces 4-6hp
- Easy To Install
- Stainless Steel Construction

The X-Pipe works by equalizing exhaust flow pulses and consequently improves flow for increased power. It also reduces interior resonance. The pipe clamps in the front (cutting of the stock pipes is required) and bolts into the stock system in the back. The X-Pipe works with stock and aftermarket mufflers.

## 1997-04 B&B Bullet Exhaust System With Quad Tips

- Loudest Exhaust System On The Market
- 22 RWHP Increase/24 Ft./Lbs. Torque Improvement
- Bolt-On Installation

Many Corvette owners have asked for a deeper, throatier, more robust C5 performance exhaust. Billy Boat took on the challenge, which appeared to be an impossible mission, and using a radical departure in exhaust technology, developed the Bullet! This system is ONLY for enthusiasts! It is without a doubt the deepest, throatiest, loudest system ever made and with absolutely no resonance. The system is manufactured using 100% T-304 stainless steel and features bold 4" double wall tips. The system is covered by a manufacturer's limited lifetime warranty.

## 1997-04 Rear Bumper Exhaust Section Black-Out Overlay

- Provides A Custom Look
- Easy To Install
- Eliminates The Need To Paint The Bumper

For many the look of the rear bumper on a C5 Corvette is too large. By installing this Black-Out Overlay it visually shrinks the size of the rear bumper and gives it a distinctive racecar appearance. This overlay is made of very thin, lightweight ABS that has its own self-adhesive backing. The finished side is lightly textured and has a first class satin-gloss finish. The Black-Out looks like a factory option and can be installed in 10 to 15 minutes. Installation instructions included.

## 1997-04 Road Tour Body Panels & Components

- Easy-To-Install Body Makeover
- Components Include A Hood, Canards, Side Ground Effects, Side Spears, Rear Bumper & Custom Matching Magna Flow Exhaust System

Give your C5 an extraordinary new look! All of the body panels are ready to sand, prime and paint. The canards, side spears, ground effects and rear bumper are all made of urethane. The hood is baffled at the front inlet to direct road debris and water away from the engine. The hood and rear bumper are 100% bolt-on items with the bumper using all stock lights and hardware. In order to use the bumper you must order the hi-performance Magna Flow Exhaust System to properly route the exhaust (the exhaust system will give you a performance boost and a powerful road tour exhaust note). The canards, side spears and side ground effects mount to the car with a combination of two-sided tape and supplied fasteners. Instructions included.

## 1997-04 Vertical Door Update Kit

- Gives C5's An Ultra Exotic Look
- Makes Entry & Exit Easier
- Bolt-On Installation

Installing vertical opening doors on a C5 is now an easy job. It has never been easier. This kit provides unique bolt-on, Easy-glide door hinges that utilize your stock doors. In fact this kit requires only minor modifications to your stock wiring and the only thing required is minor trimming to the inner fenders and front door edge. And no paint work is needed. The typical installation time is under 6 hours and complete instruction are provided. And because of the unique design of the kit you can always return the doors to the stock hinges.

## 1997-04 Rocker Panel Repair Kit

- Allows For Simple Reattachment Of Broken Rockers
- Saves Expense Of Buying & Painting A New Rocker

It's not uncommon for inexperienced service techs to improperly position jack heads while jacking-up your C5 and breaking off the mounting ears on your rocker panels. Ouch! The rocker is then free to flap in the breeze and be a misaligned eyesore. Until now your options were to buy a new panel and paint it or use a half-baked fix. Now you can professionally and quickly fix the problem in minutes. Simply bond the fiberglass repair part or rivet it to the rocker, rebolt it to the body and you're ready to go! Left and right repair parts included in kit, you supply the bonding agent or rivet.

## Laser Shield® License Cover

- Diffuses Incoming Laser Beams
- Does Not Obstruct View Of License Numbers

Laser guns emit a laser beam which is bounced off a flat, perpendicular, metallic, reflective surface on your vehicle. This specially designed cover works to absorb and diffuse the incoming laser beam. Significantly shortens the effective distance of laser guns. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

## The Super Protector® License Plate Cover

- Protects Your Privacy
- Blurs Numbers From Side View & Overhead
- Numbers Visible From Straight On View

How does "The Protector" work? Photo-radar and photo-laser operate at known angles to the direction of traffic flow. Using a passive, state-of-the-art light-bending lens, the camera is unable to see the plate numbers, and identify your vehicle. The license plate is still readable from straight on. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

## 1997-04 Third Brake Light Pulsar Kit

- "Delay-Repeat" Circuitry
- Provides Great Visual Display
- Plug & Play Installation
- No Adjustments Required

Your Corvette is low and not always seen by the driver behind you. This module can give you an extra measure of safety. These devices are full "Plug-N-Play" harnesses that simply plug into your existing center high mount brake light. There are no wires to cut and no adjustments to make. The module automatically pulses your third brake light when you apply the brakes. The light will pulse on and off for about a second, then stay on steady for as long as you press the brake pedal. The unit is designed to create a gentle fluttering of light, so your car is more noticeable, yet it doesn't aggravate the driver behind you.

51603	59.99 kit
-------	-----------

## 1997-04 Back Off™ Third Brake Light Flasher Module

- A "Must Have" Safety Device
- Simple To Install

The module wires into your existing third brake light with two wires in just seconds, then when you apply the brakes it causes your brake light to emit a visual alerting signal of three short light flashes, followed by one long light flash (3.5 seconds).

The signal automatically repeats itself as long as the brakes are applied. The module itself is about the outside dimension of a business card. An optional Back Off™ unit with three-wire hookup is also available which flashes the third brake light when you put your Corvette in reverse to alert drivers behind you. Instructions included.

## 1997-04 Window Valet™

- Allows You To Remotely Operate Your Windows With The Stock Key FOB
- Provides Passenger Door Lock Assistance
- Provides High Speed Report

By simply plugging the Window Valet™ module into the OBD-II diagnostics port below the steering column, you can remotely operate your power windows. Press a button on your stock key FOB three times and it will lower both of your windows from any position all the way down. Press another button three times and you can raise both windows from the complete down position. For convertible owners this is a great convenience because you don't have to get back in your car after putting the top up to close the windows. You can also use the Window Valet™ to turn on the accessory power with the key out of the ignition to listen to the stereo. The system will also let you spy on parking valets because it records the highest speed attained on your speedometer. This feature is called High Speed Report.

## 1997-04 Blank Ignition Key

- Specially Coded, Includes Cover

Because 1997 and later Corvettes have specially coded ignition keys, it makes good sense to have a couple of spares. To order a key, have your local GM dealer measure the resistance on your key (it will be a 2 thru 15 value code) and add that code to the part number listed below. We'll ship you the correct key which can then be cut by a local locksmith. It's as easy as that.

### 1997-04 Edelbrock Performer IAS Shock Absorbers

- Unique Inertia Active System
- Improves Handling Yet Delivers A Smooth Ride

Edelbrock's all new Performer IAS shock absorbers dramatically reduce chassis roll around turns, yet deliver a smooth, comfortable ride. No other shock can offer this kind of performance because no other shock has their patented Inertia Active System. This unique system is soft on rough roads and firm on smooth roads to keep the tires firmly planted on the ground and the chassis stable. The result is a vehicle that's safer and more fun to drive. With Edelbrock, you get the best of both worlds...superior handling and comfort!

### 1997-04 Touring Sport Suspension Kit

- Delivers Z06 Like Performance
- Easy Bolt-On Installation

Give your C5, 2001, Z06 like performance with the installation of only three perfectly designed parts, install a set of Bilstein digressively valved high-pressure gas shocks to give you a more responsive ride. Combine this with a higher spring rate front spring, cradle it in urethane spring mounts and you've got instantly upgraded handling without any harshness in day-to-day street driving. Non-Z51 cars will see a dramatic difference in handling while Z51 equipped models will definitely find an improvement. In fact the front spring is used by winning world challenge and One Lap Of America racers.

### 1997-04 Heavy Duty Adjustable Sway Bar End Links

- Adjustable For Exact Sway Bar Fit
- Heavy Duty Design For Extreme Strength

High performance driving demands high performance parts. Sway bar end links are no exception. Eckler's Corvette Performance Parts now offers an adjustable heim joint sway bar end link for a perfect fit to the lower control arm regardless of the ride height settings. Included in this kit are aircraft quality heim joints, spacers and hardware for an exact link alignment of the bar to the lower control arms.

## 1997-04 Hi-Performance Sway Bar End Links

- GM's Answer To Improve Weak End Links
- Cast Aluminum Link
- Replaces Plastic Link On 1997-03's

In 2004 GM improved the stock front and rear sway bar end links by changing to cast aluminum instead of plastic. This change greatly reduces the possibility of heavy side loads pulling the studs out of the links. Use these links front and rear for upgrades on 1997-03's and as replacements for 2004 C5's.

## 1997-04 WeatherShield® Car Cover

- "The" Ultimate Car Cover Fabric
- Repels Water Better, Keeps Car Drier, Packs Small And Light, Dries In A Flash

The WeatherShield® Car Cover manufactured by Covercraft is the standard in top of the line car covers. It keeps your Corvette drier, is softer against your paint's fine finish, dries faster and breathes better than anything on the market today. Combine that with the fact that it has special UV inhibitors and you've got an unbeatable combination. Technically speaking

the fabric is different because the one-layer fabric goes thru the Nextec® encapsulation process which non-technically speaking is the very best way to make an extraordinary fabric. In fact this process also gives this fabric a 9 out of 10 rating for simple dust protection too! The WeatherShield® cover has these quality features; double stitched seams, neoprene elastic front and rear for a snug fit and reinforced, non-scratch grommets for optional lock.

## 1997-04 Covercraft Form-Fit Indoor Car Covers

- Ideal Indoor Cover
- Excellent Dust Protection & Breathability
- Exclusive Body-Hugging Fit

Covercraft's Form-Fit™ covers are ideal for protecting beautiful paint finishes. The inside fibers are 100% cotton terry loop, which are sheared to a fleece-like finish to provide a super soft feel. The outer shell of woven polyester has Lycra/Spandex® added to the yarn to give the cover an exclusive, body hugging fit unlike any other cover produced.

And unlike other fabrics, Covercraft's material retains its shape over an extended period of time while the 7.4oz material helps provide cushioning against accidental dings. The Form-Fit™ cover is machine washable and carries a manufacturers limited warranty of 4 years. Storage bag included.

## 1997-04 Aqua Shed Premier Tan Car Cover

- Best Water Repellency • Custom-Fit
- Four Layers: Bicomponent Strength Layers, Bicomponent Layer, Microporous/Breathable Barrier Film & Soft Bicomponent Spunbound Layers
- Scratch-Proof Grommets • Ideal For Indoor & Outdoors
- 5-Year Warranty

Looking for a superior car cover? The Aqua Shed Premier car cover is the best overall car cover you can buy! This unique 4-layer cover is manufactured using the newest, state-of-the-art production technology. Four high-tech materials are ultrasonically joined for multiple layers resulting in maximum protection for

your Corvette. The inner core is a soft spunbound layer designed to preserve your beautiful paint finish. The second layer is made up of a microporous/breathable barrier. The third and fourth layers are bicomponent layers with the outer layer adding overall strength, UV resistance and durability to the cover. This combination results in an exceptionally high strength-to-weight ratio, with the "soft touch" necessary for today's water-based paint finishes. Scratch-proof grommets are built-in for an optional safety lock and cable. Protect your valuable Corvette with an Aqua Shed Premier car cover from Eckler's! Includes storage bag.

## 1997-04 Mosom Plus™ Car Cover

- Filters Out Dust • Non Scratch, Soft Inner Lining • Lightweight & Durable

Mosom Plus™ is a four layer material. The outer two layers are Spunbond Polypropylene, the middle layer is a special micro-porus film and the inside layer is super-soft fabric. The middle layer is an excellent rain barrier, while allowing for vapors to pass through. The special cotton flock inner layer pampers the most delicate paint finish. It is a great choice for all-around car cover use, suggested for most conditions except extreme sun, snow or ice. Mosom Plus™ is a non-woven material, so in the unlikely event a rip occurs in the material, it will not run.

## Battery Tender

- Safe, Reliable, Trouble Free Battery Care
- Developed To Maintain Batteries Not In Constant Use Or Storage

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

## Battery Tender Waterproof 800 Charger

- Charges Battery & Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is totally epoxy encapsulated so it will perform even while submersed under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

Since 2008 marks the 30th

Anniversary of Corvette Pace Cars at Indy, we're honoring it with this official set. We've taken a stunning full-color photo of every "Indy 500" Corvette Pace Car from 1978 to today — all eleven of them! — and produced it on the face of an Uncirculated Indiana State Quarter! This magnificent 11-coin collection represents four generations of Corvettes, including convertibles and Z06's, all decked out in their original, pace car paint jobs, and with official pace car badges! Each 11-coin set comes in a deluxe case designed to protect and display your collection, with Certificate of Authenticity verifying its legal tender status and official "Indy 500" authorization.

### Eckler's Gift Certificates

Let them make their  
ownchoice with an Eckler's  
gift certificate available in any denomination.

### Limited Warranty

Eckler's will not be responsible for any damage  
or loss caused by delays, failures or other con-  
sequential damage, nor for labor, transportation  
or any other charges incurred in the replace-  
ment or repair of a defective item. Eckler's  
accepts no responsibility for any consequences  
resulting from installation of any parts.

### Returns

To be eligible for return, the product must be  
in like-new condition, in original packaging and  
accompanied by a copy of the invoice. Special  
order parts are non-returnable.

Product must be received within 30 days of the  
date of the invoice to be eligible for a full  
refund. Products received within 31 to 60 days  
are subject to a 25% restocking charge. No  
returns allowed beyond 60 days of invoice date.  
All returns must be sent prepaid. It is suggest-  
ed to insure the returned item for its full value  
to protect against loss. Allow up to 3 weeks  
from the date of shipment for processing  
refunds, credits and exchanges.

### Package Protection Plan Rates

Eckler's allows total peace of mind by eliminat-  
ing any hassle or risk in the event of loss or  
damage of parts during shipment. If a problem  
arises, call our Customer Service  
representatives for a quick resolution.
