## 2005-10 Baer Decelarotor® One-Piece Brake Rotors

- **Stop Better Than Stock Rotors**
  - **Slotted & Drilled For Performance Look**
  - **Bolt-On Installation**
  - **Fits 2005-08 All Except Z51 & Z06**
  - **36 Month/36,000 Mile Manufacturer's Limited Warranty**
- Baer's Decelarotor® Performance Brake Rotors for Corvettes provide better stopping than the stock rotors and the performance look of drilled, slotted and zinc plated rotors is an outstanding visual upgrade. One of the main reasons Baer rotors stop better is because where the pad rides is internally thicker than the stock rotor thereby pulling heat away from the fire path. This feature allows Baer to provide a limited lifetime warranty to the original purchaser against warpage. These rotors simply bolt-on and are the same diameter as the stock rotors.

## 2005-10 Baer EradiSpeed-Plus Two-Piece Brake Rotors

- **Hi-Performance Upgrade Rotors**
- **Far Superior To Stock**
- **Two-Piece Design Is Lighter Than Original**
- **Fits All Except Z51 & Z06**

For those who want more performance than stock and lighter weight than EradiSpeed's one-piece rotor then their two-piece rotor is the answer. Like the one-piece design the two-piece model is internally thicker where the pad rides to allow heat to be drawn away from the fire path better. It's this feature that allows Baer to offer the original purchaser a manufacturer's limited lifetime warranty against warpage. And like the one-piece unit the rotor ring is slotted, drilled and zinc plated. The aluminum hat of the two-piece design is made of billet aluminum that is anodized black. The hat is secured with stainless steel fasteners and it's the hat that allows each rotor to be almost 4 lbs. lighter for less unsprung weight and improved handling. The front rotor for the Eradi-Speed Plus is the same size as stock while the back Eradi-Speed Plus II is 14" in diameter vs. 12-1/4". The rear rotors come with rear caliper relocating brackets and you'll find all 4 rotors an easy, bolt-on installation.

## 2005-10 Baer Eradi-Speed Plus II Stock To Z51 Upgrade Brake Rotors

- **Provides Z51 Size Rotors On A Stock C6**
- **Hi-Performance, Large Diameter Two-Piece Rotors**
- **Bolt-On Installation**
- **Fits All Except C6 Z06**

With Baer's Eradi-Speed Plus II Upgrade Kit you can change to Z51 size rotors without changing calipers and add hi-performance, two-piece, lightweight rotors. One of the features that makes these rotors stop so much better is the extra material that has been internally cast in the brake pad area. It is this material that allows the heat to be drawn away from the fire path to improve braking performance. And it is this feature that permits Baer to offer a manufacturer's limited lifetime warranty against warpage to the original purchaser. The rotors are a two-piece design with a billet aluminum hat which is anodized black. The hats are secured to the rotor ring with stainless steel hardware and it's the aluminum hat that makes these rotors almost 4 lbs. lighter than the stock rotors. The front rotors are 13-3/8 vs. the stock size of 12-3/4" and the rears are 14" vs. 12-1/4". Both rotors are supplied with caliper relocating brackets and make installation an easy, bolt-on procedure.

## 2006-10 Z06 K&N Air Intake System

- Yields 27.22 Horsepower
- K&N Filter With 10-Year/Million Mile Warranty
- Bolt-On Installation • Fits 2006-09 Z06
- 50 States Legal

The Chevrolet Corvette Z06 that served as the Daytona 500 pace car is mechanically identical to those available at dealerships. It is also the fastest vehicle ever offered by Chevrolet and General Motors. Drivers can go from 0-60 mph in 3.7 seconds with its 7.0 liter all aluminum racing inspired 505 horsepower engine. The Corvettes top speed is 198 mph. K&N Engineering, Inc. developed a Air Charger Intake System P/N 50651 for the C6 Z06 Chevrolet Corvette 7.0 liter V8 engine. K&N dynamometer tests show a horsepower gain of 27.22hp @ 5600 RPM on this super car. A Z06 is the closest experience many will have to the experience of sitting in a race car. The aerodynamically engineered tube allows for more air to flow into the engine. The design of the K&N Air Charger Intake System had to meet and exceed the demands of a motor that makes 500 horsepower and in order to do this the K&N Air Filter included in the intake system is made from carbon fiber and very large. Also they put an air foil in the large intake tube to provide extra strength and to help streamline the incoming air once it passes through the K&N Air Filter. This Air Intake System provides less restriction which results in more power. It takes less than 90 minutes to install most Air Intake Systems with common tools. K&N Air Intakes also come with the famous 10-Year/Million Mile Limited Warranty.

## 2005-07 Granatelli LS2 Mass Air Flow Sensor With Forced Air System

- Provides Up To 23 RWHP
- Bolt-On Installation
- Used With Aftermarket Forced Air Systems

Using Granatelli's Mass Air Flow Sensor will give your engine a huge boost in air flow over the stock sensor (47%). On C6's to improve performance it's critically important to open up the restrictions to the engine (the inlet side and the exhaust side) to improve horsepower and torque. Granatelli's sensors work with either Forced Air Systems (P/N 49362) or stock air filters (P/N 48493) and provides its healthy improvements between 2000 RPM and redline on the Corvette's LS2 engine. The unit is 50 states legal and is extremely easy to install.

## 2005-10 VR Throttle Body Spacer

**NEW**

- Fits LS2, LS3 & LS7 Engines
- Provides 5hp Increase At Rear Wheels
- Increase Torque By 10Ft./Lbs.
- Delivers Increased Velocity
- Reduces Air Turbulence

The VR throttle body spacer is just that. A spacer, no swirl tricks etc? VR has found in honest testing on a running engine using a clear PVC neck, that the swirl effect that most companies are after is not actually occurring to enough of a degree to create a turbine effect in the intake manifold. We do see them giving the air structure, reducing the turbulence created by the air induction and throttle body, this also increases velocity. The VR spacer has small ridges that help straighten airflow, also reducing air turbulence and increasing velocity. The item that always became clear was that a straight spacer with vanes designed for straightening airflow was best overall for performance, fuel economy and ease of production.

### Spark Plug Boot Seal

- Use At Every Plug Change
- Prevents Plug Boot Sticking

Dynatex Spark Plug Boot Seal should always be used inside spark plug boots and distributor boots to eliminate spark leaks common to HEI and hi-performance ignition systems. Applied in a thin coat, the seal acts as a voltage insulating gel by filling air gaps. The seal also prevents rubber deterioration and stops plug boot sticking.

## 2006-10 B&B Fusion Z06/ZR1 Exhaust System With Quad Tips

- True 3" Stainless Steel Exhaust System
  - Round Or Oval Double Walled Tips
  - Uses Factory Vacuum Motors
  - Simply Plug OE Vacuum Lines Onto Motors
  - Closed For Cruising Sound, Bullet Sound On Demand
- The Fusion is a bi-modal exhaust system, meaning it has two passages, or modes, that the exhaust can travel through the muffler. Each of the mufflers has two outlets, with one side having a butterfly type valve which allows the exhaust flow to be shut off, regulating which side of the muffler the flows exhaust. One side of the muffler is the "quiet" side, and one side is the "loud" side. The "quiet" side is a smaller, muffled and chambered tube, while the "loud" side is 3" tubing straight through.

## 2005-10 CORSA Sport Exhaust System With Pro-Series Tips

- Delivers 5-8 Rear Wheel Horsepower & Torque
- Terrific Upgrade For Muscle Car Exhaust Note
- Bolt-On Installation
- Fits 2005-10 All Except Z06

For C6 Corvette owners who want to add a distinctive, European exotic muscle car sound to an otherwise sewing machine quiet, stock exhaust then CORSA's Sport system is the best choice. It has a deep, full-bodied exhaust note at idle, yet provides a clean, crisp powerful exhaust note under acceleration that says you have pure power under the hood! And like all CORSA systems, you'll get a whisper quiet sound at cruising speeds without any annoying cabin resonance or drone. The system is made of 304L stainless steel and has straightflow thru design mufflers without packing or baffles. This design provides 64% more exhaust flow than the stock mufflers which gives you more power and torque. It is 50 states emissions legal and is decibel compliant in all states except for California, Maine and Washington (if you live in these states the CORSA Touring System

is decibel compliant). Backed by a limited life-time warranty, the system also includes all installation hardware and instructions.

- 2008 Without Performance Exhaust
- Fits All Except Z06

With Eurosport's Exhaust Enhancer Plates you have 4 great options. All have 304 grade stainless steel backer plates and each has outstanding looking laser cut acrylic for the logos. You can choose the mirror polished backers with the C6 logo or you can select it with the logo and Corvette letters combination. For an equally dramatic look you can have the C6 logo inlaid into a matte black acrylic field or get it with the logo and letters combination. Whatever option you decide on, you'll find the plates easy to install because you don't have to remove the exhaust bolts (which are in cramped quarters), all you have to do is loosen the bolts and slide your new exhaust plate on to original slotted attachment points.

## 2005-10 Coupe Waterfall Emblem

- Adds Factory Convertible Styling Touch
- Affixes Easily With Self-Adhesive Backing

One of the nicest interior styling touches GM added to the C5 Corvette was the convertible waterfall emblem. GM didn't add it to the C5 coupe, but enthusiasts added it themselves. For the C6 GM once again added it to the convertible, but not the coupe. Now you can add this great styling touch to your C6 with this factory emblem and make the console riser (waterfall) of your coupe look just as good as the convertible Corvettes.

## Laser Shield® License Cover

- Diffuses Incoming Laser Beams
- Does Not Obstruct View Of License Numbers

Laser guns emit a laser beam which is bounced off a flat, perpendicular, metallic, reflective surface on your vehicle. This specially designed cover works to absorb and diffuse the incoming laser beam. Significantly shortens the effective distance of laser guns. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

## The Super Protector® License Plate Cover

- Protects Your Privacy
- Blurs Numbers From Side View & Overhead
- Numbers Visible From Straight On View

How does "The Protector" work? Photo-radar and photo-laser operate at known angles to the direction of traffic flow. Using a passive, state-of-the-art light-bending lens, the camera is unable to see the plate numbers, and identify your vehicle. The license plate is still readable from straight on. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

## 2005-10 Carbon Fiber C6 GTR1 Headlights

- Race Inspired Design
- All New-No Core Charge
- Easy Upgrade & Installation

Specter Werkes/Sports

announces its new C6 Corvette carbon fiber headlight module system-an easily installed upgrade that adds a dramatic, premium accent to any C6 model. The C6 carbon fiber headlight modules are based on the headlight module styling of Specter's recently introduced C6 GTR production model and build on the company's popular Group 6 body enhancement lineup. The racing-inspired appearance of the raw carbon fiber components lends a sportier, more aggressive look to the Corvette that can be further enhanced with other Group 6 components including a rear spoiler and rear fender flares. There's a jewelry-like aspect to the headlight modules that gives the Corvette a more upscale ambience. The Specter system is delivered with fully assembled modules that include the carbon fiber bezels, factory style clear covers and pre-installed high-intensity discharge (HID) lights. They are direct replacements for the stock headlight assemblies, utilizing the original hardware and factory harness. The lighting elements are from Visteon, the original equipment supplier for the Corvette Z06. Installation is a simple remove-and-replace operation that doesn't required special tools or other vehicle modifications. Specter's system is based on the production assemblies, headlight alignment, aiming and replacement bulbs are the same as the factory units.

## 2005-10 Bilstein Gas Shock Absorbers Suspension

- Our Best Hi-Performance Shock
- High Pressure Gas Shock
- Buy A Set & Save!

Specifically calibrated for high performance

Corvette applications, Bilstein high-pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Guaranteed not to fade, the Bilstein shocks are 20 % stiffer than original equipment shocks for true high performance and racing applications. Bilstein shocks feature a seamless, mono-tube construction for fast heat dissipation and finely machined components to yield the most sensitive valving available today. Bilstein shocks may increase the ride height of the car approximately one-half inch if the car has settled due to worn suspension components. Cannot ship by air.

**Note:** If your Corvette is equipped with the electronic suspension option installation of this shock will eliminate the option. This shock is permanently set in the sport mode and will trigger a warning light on your car's dash display. This warning code can be simply removed by your local dealer or service technician. electronic suspension option installation of this shock will eliminate the option. ## 2005-10 Body Lowering Bushings

- Lowers Ride Height 1-1/2" To 2"
- Improves Handling & Provides A More Aggressive Look
- Includes Front & Rear Polyurethane Bushings

Whether you want improved handling or a better look, these Corvette Body Lowering Bushings are the ticket. You can adjust them from stock ride height to 1-1/2" lower on the Z-51 or 2" on a stock suspension Corvette by simply turning the spring bolts. The new polyurethane bushings are thinner than the stock bushings thus allowing the necessary adjustment. These bushings install over your existing spring bolts and clip into place once the rubber bushings have been removed. Installation requires removing the stock spring bolts and cutting the original rubber bushings off.

## 2005-10 Covercraft Form-Fit™ Indoor Covers

- Ideal Indoor Cover
- Excellent Dust Protection & Breathability
- Exclusive Body-Hugging Fit

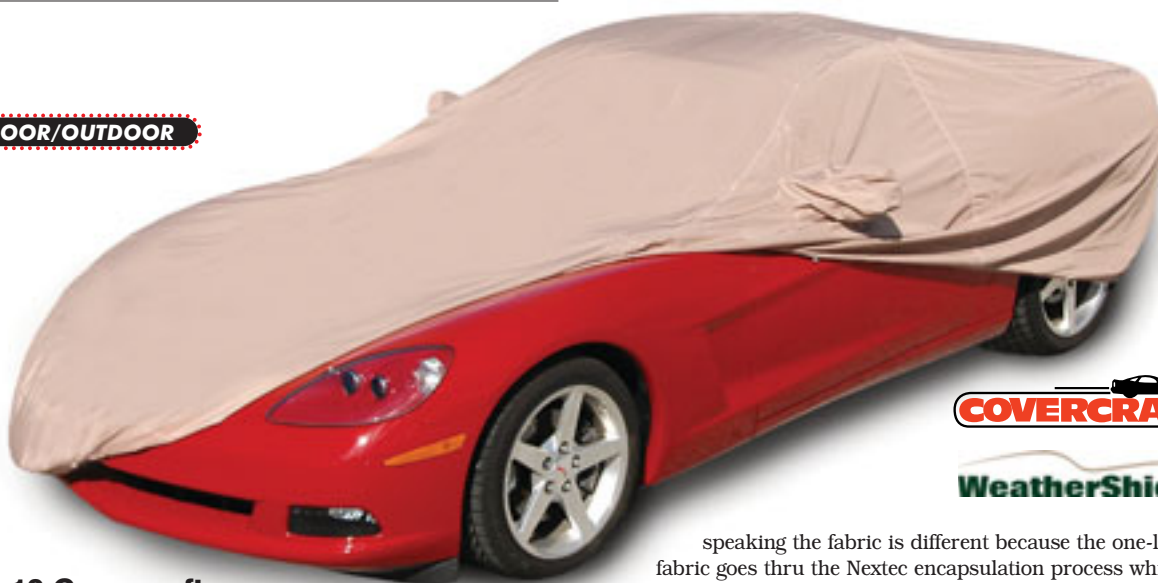

Covercraft's Form-Fit™ covers are ideal for protecting beautiful paint finishes. The inside fibers are 100% cotton terry loop, which are sheared to a fleece-like finish to provide a super soft feel. The outer shell of woven polyester has Lycra/ Spandex® added to the yarn to give the cover an exclusive, body hugging fit unlike any other cover produced. And unlike other fabrics, Covercraft's material retains its shape over an extended period of time while the 7.4 oz material helps provide cushioning against accidental dings. The Form-Fit™ cover is machine washable and carries a manufacturers limited warranty of 4 years. Storage bag included.

## 2005-10 Covercraft WeatherShield Coupe Car Cover Tan

- "The" Ultimate Car Cover Fabric
- Repels Water Better, Keeps Car Drier, Packs Small & Light, Dries In A Flash

The Weathershield Car Cover manufactured by Covercraft is the new standard in top of the line car covers. It keeps your Corvette drier, is softer against your paint's fine finish, dries faster and breathes better than anything on the market today. Technically

speaking the fabric is different because the one-layer fabric goes thru the Nextec encapsulation process which non-technically speaking is the very best way to make an extraordinary fabric. In fact this process also gives this fabric a 9 out of 10 rating for simple dust protection too!. Like other Covercraft covers, the Weathershield cover has these quality features: double stitched seams, neoprene elastic front and rear for a snug fit and reinforced, non-scratch car cover look grommets. Backed by a 4 year limited warranty.

## 2005-10 Aqua Shed Premier Tan Car Cover

- Best Water Repellency
- Custom-Fit
- Four Layers:
  - Bicomponent Strength Layers, Bicomponent Layer, Microporous/Breathable Barrier Film & Soft Bicomponent Spunbound Layers
- Scratch-Proof Grommets
- Ideal For Indoor & Outdoors • 5-Year Warranty

Looking for a superior car cover? The Aqua Shed Premier car cover is the best overall car cover you can buy! This unique 4-layer cover is manufactured using the newest, state-of-the-art production technology. Four high-tech materials are ultrasonically joined for multiple layers resulting in maximum protection for your Corvette. The inner core is a soft spunbound layer designed to preserve your beautiful paint finish. The second layer is made up of a microporous/breathable barrier. The third and fourth layers are bicomponent layers with the outer layer adding overall strength, UV resistance and durability to the cover. This combination results in an exceptionally high strength-to-weight ratio, with the "soft touch" necessary for today's

## 2005-10 "Jake" Logo Intro-Guard Car Cover

- Custom-Fit With Exclusive Weather Lock Strap System
- Hi-Performance Fabric • Embroidered Jake Logo
- Virtually Waterproof, Yet Breathable
- Car Cover Bag & Lock Included
- Manufacturer's Lifetime Warranty

NEW

"Take no prisoners!" That's what the Corvette Jake logo means. Made famous by the C6R Corvette racing team with its now familiar outlined skull and Corvette cross-flags, serving as the eyes and nose, it strikes fear into competitors because it's a world class car. You'll find the Intro-Guard car cover by Intro-Tech Automotive is world class too. Why? Its fabric, like the Nike Dri-Fit hi-performance apparel fabric, has taken car cover fabrics to the next level of performance. It far exceeds the "old school" multi-layer and natural fabrics in terms of moisture protection, UV protection, breathability and compact storage. The Intro-Guard car cover fabric is a 150 Denier woven polyester with an aluminized polyurethane coating. Sounds technical, but it's simple, the aluminized coating reflects the sun's UV rays rather than absorb

them, while the woven polyester keeps the car virtually dry while allowing the paint finish to breathe. The fabric with its hi-performance coating is baby soft on even the most delicate of finishes. And because it's lightweight, unlike bulky multi-layer fabrics and natural materials, it stores to approximately the size of a 12 pack of soda, that's small. You get all of these features plus the cover is backed by a lifetime warranty against normal wear to the original purchaser. Order one for your world class Corvette today!

## Battery Tender

- Safe, Reliable, Trouble Free Battery Care
- Developed To Maintain Batteries Not In Constant Use Or Storage

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

## Battery Tender Waterproof 800 Charger

- Charges Battery & Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is totally epoxy encapsulated so it will perform even while submersed under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

Since 2008 marks the 30th

Anniversary of Corvette Pace Cars at Indy, we're honoring it with this official set. We've taken a stunning full-color photo of every "Indy 500" Corvette Pace Car from 1978 to today — all eleven of them! — and produced it on the face of an Uncirculated Indiana State Quarter! This magnificent 11-coin collection represents four generations of Corvettes, including convertibles and Z06's, all decked out in their original, pace car paint jobs, and with official pace car badges! Each 11-coin set comes in a deluxe case designed to protect and display your collection, with Certificate of Authenticity verifying its legal tender status and official "Indy 500" authorization.

the 48 contiguous states, excluding truck  
shipped parts. Rates for Alaska, Hawaii and  
Puerto Rico may vary. International shipping  
rates are calculated on weights and dimensions,  
call for estimate.

▲ Symbol designates part has shipping surcharge  
due to heavy weight or oversize dimensions. Two  
symbols designates the part is a larger oversize 2 box.  
Add \$9.99 to above Shipping and Handling Rates for  
each symbol.

FedEx Delivery Area Surcharge - \$1.95 per package  
residential /\$1.50 per package commercial addresses.  
Please note: One of the two applicable FedEx sur-  
charges will be added to your shipping & handling  
charges for zip codes FedEx designates as less acces-  
sible or to less populated areas.

### Prices Subject to Change

During the length of time our catalogs circulate,  
the price or availability of items sometimes  
changes without notice. While every effort is  
made to ensure accuracy, Eckler's is not respon-  
sible for errors or omissions in this catalog.
